VOL. 3. NO. 83. PRICE FIVE CENTS.

"HE GATHERED THEM IN"

POSED AS CANVASSER FOR MAGAZINES AND SWINDLED 21 PERSONS.

MADE TO REFUND PART OF TNE MONEY

Mayor J. L. Babcock and Officer Howard Wood Headed Off the Game —Several Educated Ladies Among the Victims.

Twenty-one well known Sedalians, the majority of whom are ladies, have found themselves victims of a swindler, whose apprehension was brought about through the efforts of Mayor J. L. Babcock and E. H. Wood, a police officer.

The fellow came to Sedalia last Thursday night and registered at the Huckins hotel as "J. Carmody." He appeared to be about 45 years old.

He said he represented a Philadelphia, Pa., firm and was soliciting subscriptions at 50 cents each, always payable in advance, which entitled the subscriber to one magazine a month for one year, the subscriber having his selection of a list of thirty-five magazines, which Carmody said he represented.

He appointed Mrs. Lena Townsend, 320 West Tenth street, local agent, with authority to appoint subordinates. Her salary was to be $10 per week, while her agents were to receive 50 per cent commission.

Carmody visited various institutions in Sedalia and collected a total of $5.25 from the twenty-one victims, one-half of the amount he was entitled to, he having deducted the agent's commission of 25 cents on each subscription.

Carmody was working arduously, interesting many people, when Mayor Babcock learned of him. He detailed Officer Wood to locate the man.

Saturday afternoon last Carmody was hailed by the officer and taken to police headquarters, where $2.75 was found on his person, but not a single paper or credential to verify his statement of being strictly "all right" could he furnish.

Carmody was not arrested, but deterred in his work, and he left town that night. Incidentally, he left a $7 board bill at the Hotel Huckins.

In the meantime twelve of the victims of Carmody's scheme had planned to meet last Monday morning to organize a club, each of the twelve members to pay 50 cents, which entitled them to a year's subscription to any magazine they desired, their plan being to exchange magazines with each other.

While the ladies were in session, and just as they were about to perfect their organization, information reached them that they had been victimized, and that instead of reading all the magazines they wanted for 50 cents a year they will be compelled to pay the standard price, as heretofore.

Mayor Babcock still has possession of the $2.75 taken from Carmody's person, and on Thursday afternoon he intends to pay a dividend to the ladies victimized.

A BLAZE IN A COLLEGE

Prof. G. E. Hoover's Hand Burned and Overcoat Ruined.

The scholars of the commercial department of Central Business college were considerably exercised at 7 o'clock Tuesday evening, when a gas lamp hanging in the center of the department caught fire from an overflow of generating gas.

Prof. G. E. Hoover discovered the fire at its beginning, and seizing an overcoat belonging to Asa Biggerstaff, extinguished the blaze, after he had slightly burned his hand.

The overcoat was ruined.

FORMER SEDALIA PASTOR

The Rev. J. M. Plannette Preached at Leavenworth, Kas.

The Leavenworth, Kas., Times of Tuesday had the following of local interest:

"Rev. J. M. Plannette occupied the pulpit of the Baptist church Sunday, and those who heard him spoke most enthusiastically of his discourses.

"Rev. Plannette possesses an attractive personality and has a most forceful and logical way of presenting and forcing home the truth. His theme yesterday morning was, "Lessons From the Sacred Mountains," and at night, "Human Necessity and Divine Sufficiency."

Rev. Plannette comes from one of the leading churches in the southern part of the state (Coffeyville) and by the earnest solicitation of the members here has agreed to remain over and preach again Easter Sunday, both morning and evening.

BEAUTIFY "CROWN HILL"

MEMBERS OF SEDALIA CEMETERY ASSOCIATION MET LAST NIGHT.

HEARD REPORTS OF THE WORK BEING DONE

The Grounds to Be Beautified Under the Supervision of Sid J. Hare, a Landscape Gardener of Kansas City, Mo.

The members of the Sedalia Cemetery association met Tuesday night at the residence of one of the members and heard reports of the work done on the new addition to the city's burying ground.

The reports showed that since the board was established the place has been materially beautified and improved, and the present plans are to make it one of the most beautiful cemeteries in the west.

Under the direction of Sid J. Hare, a landscape architect of Kansas City, plants and shrubs will be planted in the new addition this week, and already connections with the City Water Co.'s mains have been made.

The association is very desirous that all owners of lots in the new addition pay the money which is due the association, as a considerable sum is to be expended at once, and in order to meet the expenses funds must be provided.

W. A. Fast is chairman of the record committee of the association, and all funds may be paid to him.

THE LADIES' MUSICAL CLUB

Meeting Held Today to Arrange for the May Festival.

The members of the Ladies' Musical club met at the Elks' club rooms this morning and completed arrangements for the grand May festival to be given at the Sedalia theater on the night of May 7.

Prof. Goetze, of Moberly, attended the meeting and will return to Sedalia next Monday to make further arrangements.

The festival will be the grandest musical event ever given in this part of the state.

An orchestra consisting of thirty-five pieces will be engaged, also four soloists from Chicago, who will do concert and solo work. In addition, the Ladies' Musical club will take part in the program.

Musically-inclined citizens of Sedalia and others as well are highly enthused over the new musical feature here, and from present indications a record-breaking crowd will be present.

THAT 2 1-2 PR. CT. TO CITY

PRESIDENT LATIMER, OF HOME TELEPHONE CO., MAKES EXPLANATION.

WILL CARRY OUT TERMS OF FRANCHISE

The City Can Have 2½ Per Cent of the Gross Earnings Every Saturday Night, if the Authorities Desire.

"Regarding the payment of 2½ per cent of the gross receipts of the Home Telephone Co. into the city treasury," said W. A. Latimer, president and who is also cashier of the Third National bank, to the Democrat-Sentinel today, "I will say that the franchise governing the payment of the same reads as follows:

"'Section 9. It is herein agreed that the said Charles G. Chaddock and Fred A. Churchill will pay to the city of Sedalia two and one-half (2½) per cent of the gross receipts for the term of its franchise.'

"The Home Telephone Co. is owned by home people. Mr. W. H. Cloney and myself being the principal stockholders.

"We are law abiding, and have no thought of doing anything but living up to the franchise in every respect, and in no way to take any advantage of technicalities.

"We owe the city of Sedalia 2½ per cent, as per terms of franchise, and will pay the same at whatever time the city council says the same is due, even if it is every Saturday night.

"As the present franchise of the Home Telephone Co. was the first to give the city 2½ per cent of its receipts, it certainly isn't going to be the one to repudiate its own acts."

CHASE AFTER A NEGRO

He Had Stolen a Broom From the Street Car Company.

Elmer Young, a conductor on the Third street car line, had an exciting chase after a negro who had stolen a street car company broom, near Park avenue, Tuesday afternoon.

The negro was a passenger on the car and alighted at Park avenue. As he did so he took a broom from the rear platform of the car.

The theft was unnoticed until the negro was over a block away, but the conductor then gave chase and when the negro espied his pursuer he dropped the broom and escaped.

WILL MEET HERE IN 1910

S. E. PRESS, OF PALACE CLOTHING COMPANY, SECURES CONVENTION.

"BROTHERHOOD OF AMERICAN YEOMEN"

St. Louis, St. Joseph and Moberly Were Aspirants for the Next Convention, But Sedalia Captured the Prize.

S. E. Press, of the Palace Clothing company, returned last night from Kansas City, where, Tuesday, he attended the state convention of the Brotherhood of American Yeomen, and succeeded in landing the next state convention for Sedalia.

Two hundred delegates attended the session and there were four towns after the next convention, namely, St. Louis, St. Joseph, Moberly and Sedalia.

On the first vote St. Louis received 68 votes to 81 for Sedalia, while St. Joseph received 41 and Moberly 19. The lowest two towns were dropped and on the second ballot Sedalia was unanimously selected for the next meeting.

The Sedalia convention will be held in April of 1910, the date to be selected by the executive committee. More than three hundred delegates will attend.

The Brotherhood of American Yeomen is a fraternal organization comprising about 104,000 members scattered over twenty-six western states, Missouri ranking second with a membership of 9,000.

In Kansas City alone there are eleven homesteads, with 3,000 Yeomen, the Gate City lodge being the largest, numbering 1,400.

Postoffice Auditor M. A. Pursley, for the past four years has been the Missouri representative on the national board of directors, and Dr. J. Herbert Smith assistant supreme medical director.

An interesting figure at the Kansas City meeting was Mrs. Emma R. Waltrip, of St. Joseph, Mo., the only supreme officer of the Brotherhood who is a woman. She is secretary of the national body.

"It isn't a new honor for me by any means," said Mrs. Waltrip, "as I have been a supreme officer of several organizations, none of which, however, are growing more rapidly than the Brotherhood of Yeomen."

The delegates were given ritualistic instructions last evening, after which the convention closed.

DOUBLED HIS AUDIENCE

Rev. E. H. Williamson at Broadway Christian Church.

The audience at the East Broadway Christian church last night was almost double that of the previous evening. The illustrated song, "Abide With Me," was beautifully rendered by Prof. Ridenour. The Epworth choir was much appreciated in the chorus.

Mr. Williamson, the evangelist, will preach this evening on the subject, "A Thing the Devil Himself Will Not Do." A cordial invitation is extended all to attend.

Those who will sing in the chorus choir are especially invited to join in the chorus work.

Among the household articles lost by the fire was an elegant chest of silver which had been presented to him by the staff of the Dallas News when he was married, and also all of their other wedding presents.

STUDENT TO BE HONORED

PRESIDENT TAFT WILL GIVE CONSULAR POST TO AN EGYPTIAN YOUTH.

EDUCATED AT THE M. S. U. AT COLUMBIA

Mr. Taft, Through Aid of Stone and Warner, Will Smash Roosevelt-ian Policy by Naming Naturalized Citizen.

Washington, April 7.— President Taft, after just a fleeting examination of one of the "Roosevelt policies," has tossed it into the discard.

President Taft announced that the former rule applied in the Roosevelt administration forbidding the appointment of naturalized citizens to diplomatic or consular positions under the United States will no longe be enforced, and that the nomination of a naturalized citizen to such a position will be sent to the senate shortly.

The web of the circumstances back of the change trails to Egypt, and involves Senators Stone and Warner, of Missouri; Senator Cullom, of Illinois, and Senator Perkins, of California.

George Salem, native Egyptian, educated at Missouri University, winner of a degree at the University of California, who speaks English, Italian, French, German and Arabic fluently, now 26 years old, is the man who will profit by the change of administration and policy.

He probably will be made assistant secretary of the American legation in Constantinople.

Left an orphan at an early age and possessing a small income from his father's estate, Salem came to this country. He drifted to Missouri and studied at the Missouri University.

There he won the friendship of Missourians directing University affairs, and, among others, Gardiner Lathrop, who has been particularly active in the young man's behalf.

Salem's one ambition has been to get back among his native people as the official representative of the United States.

To that end, his fiends in Missouri, other friends at the University of California and still others whom he won while working recently in Chicago, interested the senators in his case. On coming to Washington, Salem became personally acquainted with Senator Stone, who thought him deserving.

Mr. Stone, on learning of the policy operating against natualized citizens, thought the rule very unjust. He made an issue of the matter, calling it to the attention of Secretary Knox and President Taft.

The Weather Forecast.

Fair tonight and Thursday; colder tonight; frost south portion.

THE RESPONSIBILITY IS FIXED.

The city council will for the next year be composed of republicans, with the exception of one member, Mr. Olmstead, of the Third ward. The mayor, being also a republican, places the entire responsibility of municipal government upon that party. Of course, as has been said by this paper times without number, party politics should have no place in city affairs, but as these men have been selected as partisans it is impossible to divorce them from the organization that selected and elected them, and therefore their acts, whether good or bad, will be charged up to the party.

The Democrat-Sentinel wants a good, clean, progressive city government, regardless of which party furnishes the men that bring it about, and therefore it wishes the new councilmen every measure of success in fulfilling their public duties honestly, courageously and for the greatest good to the greatest number of the body politic.

If such success brings credit to the republicans, well and good, for it is indeed the poorest and meanest sort of citizenship that desires failure or inefficiency in public officials merely because those officials are of a different political faith.

What we want here is a greater, a better, a cleaner Sedalia, and if the republicans can and will give it to us, why, God speed and bless them in their work

STOCKINGS NOT NEEDED.

Speaking of the Payne tariff law, it is held by some economists that the schedule is just the thing. According to their emanations, the stockings worn by people generally are superfluous raiment, and in proof of the argument the chorus girl and the hardy Scotch are cited as examples. When people raise a roar about the sugar the stand-pat statesman argues that in the good old days sorghum molasses was used for "sweetening," and calls attention to the fact that the people were supposed to be healthy beyond degree.

The same cheerful idiot says that the present day gloves are a delusion and a snare, and contends that the old fashioned red yarn mittens never split down the fingers like the present hand coverings do. He also says that people are too extravagant in their tastes, and calls the figures of the statistician to prove that boiled meat contains more nutrition than fried chicken.

Possibly this amiable stand-patter has never heard what happened to that ancient man who told the people they could eat grass. He might just as well go on and say that the country owes its development to the robber trusts, and that they must be protected even at the expense of the people of the land, who must pay an added cost for life's necessities to do it.

The anonymous letter-writers are busy in the Whitla case. The father of the little boy, found in Cleveland, O., and restored to his parents, who live in Sharon, Pa., is in receipt of many letters, some of them containing dire threats if the proceedings against the alleged kidnapers are not discontinued. Possibly some of these missives ae dictated by the queer motives which affect crankish minds, but it is evident that others spring from a malevolent spirit. Sending such letters is little less fiendish than child-stealing itself, and the writers, if they can be traced, should suffer corresponding penalties.

Admiral Lord Charles Beresford, having retired from active service, is going in with characteristic energy and enthusiasm for a big British navy. He may enter politics to make his advocacy more effective, and doubtless he will be a welcome addition to the ranks of those who wish to strengthen the national defense. But suppose the efforts of Lord Charles and those working with him result in loading up the government to the point of bankruptcy, as Sir Edward Gray, the foreign secretary, hinted in parliament? Is there not a limit beyound which it would be imprudent to go?

The New York police are searching for the driver of an automobile who ran over and killed a little boy and went on without paying the slightest attention to the victim. This is one of the latest of many similar occurrences within a comparatively short space of time, and public sentiment and the authorities are alike aroused over the frequency of these heartless peformances. It is highly creditable to the large majority of automobilists that they deprecate this form of cruel recklessness, and that many of them are co-operating earnestly in efforts to discover and punish offenders.

The Canadian government at Ottawa has refused to renew the license of American companies which pipe gas from Canada, and so one-third of the present supply of Buffalo, N. Y., is to be cut off. The Canadian parliament argued that Canada needs all her natural resources for her own people.

When it comes to choosing federal judges, President Taft makes it clear to senators and representatives that he must be permitted to suit himself, being something of an expert in that field. There is nothing unreasonable about this.

The Japanese government is waging a successful war on rats by paying for every dead one brought in and giving each rat-slayer a ticket to a lottery with valuable prizes.

If all the explanations of congressmen as to their understanding of protection were to be collected, imagine what a mess they would make.

A Philadelphia doctor says there is no perfect human spine, but does he attempt to account for the trouble with the backbone of winter?

Now King Alfonso wants to try ski jumping. First thing you know that young man will rock the boat.

Colombia is "revolutionizing" again. Evidently wants to forge ahead of Venezuela in progressiveness.

The best way to keep on thinking that you can whip a man is to keep away from him.

AN OLD SAYING.

Showing How Cause and Effect Are Never Far Removed.

It is an old saying, "Where there's honey there's bees"—not less true is one which science has coined more recently, "Where there's Dandruff there's germs"—and—to push the inference still further we may truly say "Where there's Dandruff cured Newbro's Herpicide has been at work."

The reason of Herpicide's isolation as a genuine cure for Dandruff lies in the fact that it attacks and destroys the root of the whole trouble—a parasitic germ which nourishes the hair follicle.

Other so-called remedies are not directed at this true cause of the disease.

BONDSMAN LOST A SUIT

WAS IN A CASE WHERE PASTOR TOOK PAY OF DIPLOMAT 17 YEARS AGO.

JUDGE PHILIPS SAT AT SPRINGFIELD, MO

Attorney Must Reimburse Heirs of Col. Sempronius Boyd, Who Was at One Time United States Minister to Siam.

Springfield, Mo., April 7.— Judge John F. Philips in the United States court here has rendered judgment for $900 against T. J. Delaney, an attorney of Springfield, who was one of the bondsmen of the late Col. Semphronius Boyd, former member of congress from this district and at one time minister to Siam.

Col. Boyd was appointed minister to Siam in 1892. Two years later he was taken ill at his post and returned to the states. He arranged for his son to act during his absence.

Until the arrival of the son, the Rev. W. J. Eaton served at the post. When young Boyd arrived the Rev. Mr. Eaton refused to recognize him as minister to Siam and held to the office until forced out by the state department.

It developed that Rev. W. J. Eaton, in addition to being paid $700 for his services by Boyd, also drew Col. Boyd's salary from the government. The government did not learn of this until five years ago and then sued Col. Boyd's bondsmen for the recovery of the $900. As Mr. Delaney is the only bondsman still living he was made sole defendant in the government's suit.

The Somewhat Educated.

The somewhat educated girl, known as a "young lady," looks upon cooking not as an art but merely as the "menial" work of the hired person.

The lady stenographer, telegrapher, saleslady, private secretary, department store employe, etc., look at cooking "from above downward," not to mention the dainty college-bred "society girl."

If cooking were made a regular study in all our public schools as well as in our girls' colleges this senseless disdain for doing what keeps us all alive would certainly disappear in the course of time.—The National Food Magazine.

An Epistolary Hint.

In the letter from Boston was a special delivery stamp.

"What did she send that for?" the woman wondered. "The information she wants can be sent in an ordinary letter. It won't need to be sent special."

"That stamp," said the man, "is a delicate hint to be quick about answering. It is a hurry-up device used by many men. It is very effective. A two-cent stamp does not always spur one to any special effort, but a special delivery stamp means that the writer wants what he wants when he wants it, and the most dilatory correspondent alive is not going to let any grass grow between the scratches of his pen when answering."

ANOTHER HOME-COMING

'TIS TO BE HELD IN MILWAUKEE, WISCONSIN, ON AUGUST 3, 4, 5, 6 AND 7.

A POINTER FOR SEDALIA'S CELEBRATIO

The City Made Famous by the Schlitz Beer Expects to Raise $50,000 in Three Weeks to Defray the Expenses.

Milwaukee, Wis., April 7.—Plans for Milwaukee's big homecoming celebration on August 3, 4, 5, 6 and 7 gradually are assuming tangible form and the various committees are able to report work in various departments to be well under way.

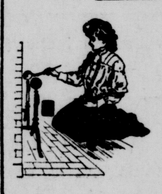
Just at this tme the names of former residents of Milwaukee who might be induced to return for the celebration are wanted by the invitation committee. Each name and address is recorded in a large set of books, and to each address will be forwarded an invitation to the homecoming.

All these persons, no matter how far away, will be kept in touch with doings of the various committees and progress of plans, and literature will be sent from time to time to fully apprise each one just what may be expected in the way of entertainment and accommodation, together with other interesting notes.

A reproduction of the municipal flag, whose design has been accepted as a part of the official homecoming emblem and for use as the official flag, will appear on all homcoming stationery going out of headquarters.

The flag is blue, having in its center the letter "M" in white on a circular background of red, carrying out the "bright spot" idea the insignia of the Citizens' Business league, and familiar in many cities in which the league has been active.

Everybody here is boosting the whirlwind campaign to raise $50,000 in three weeks to defray homecoming expenses.



If your mantel looks dingy or worn, you can make it like new with Jap-A-Lac—all the colors, in 15c, 25c, 40c, 75c, $1.35 and $2.50 **Arlington Pharmacy.**

A COUNTY SUED FOR $60,000

It Grows Out of the Digging of Ditch In Bates County.

A. V. Wills & Sons, sub-contractors in digging the big Bates county drainage ditch, have commenced suit against Bates county in the federal court for $58,000 for work done, says the Clinton Democrat. They assert that they encountered rock in the work where the drawings showed soil that could be dredged out.

The county claims that it has but one contract, with Foohey & Sons, the main contractors, and that under this contract the work must be completed before payment is made.

They stand pat on this proposition and stand ready to pay when the rock is taken out and not before.

Not Sisters

Now and again you see two women passing down the street who look like sisters. You are astonished to learn that they are mother and daughter, and you realize that a woman at forty or forty-five ought to be at her finest and fairest. Why isn't it so?

The general health of woman is so intimately associated with the local health of the essentially feminine organs that there can be no red cheeks and round form where there is female weakness.

Women who have suffered from this trouble have found prompt relief and cure in the use of Dr. Pierce's Favorite Prescription. It gives vigor and vitality to the organs of womanhood. It clears the complexion, brightens the eyes and reddens the cheeks.

No alcohol, or habit-forming drugs is contained in "Favorite Prescription." Any sick woman may consult Dr. Pierce by letter, free. Every letter is held as sacredly confidential, and answered in a plain envelope. Address: World's Dispensary Medical Association, Dr. R.V. Pierce, Pres., Buffalo, N.Y.

What Sailorman Meant When He Told of an Adventure in Force 10.

Doubtless there were many puzzled readers when a deep-sea skipper rolled into this harbor a few days ago and reported that his ship had been belated by a gale which had piped up to "force 10." "Force 10," it was explained, meant something like a hurricane.

It is a term borrowed from the Beaufort scale, a scheme of wind measurements devised by the British admiral Beaufort before the days of ocean-going steam. Force 1 was a calm, force 2 a light breeze, and so on up the hurricane velocity.

Perhaps, too, the Beaufort scale may give a clew to those who have been wondering for some time at the title of a popular German picture. It is just one expanse of frowning cloud and storm tossed billow, and the artist has named it "Windstarke 10, 11."—New York Sun.

FOR SALE.

The hardware stock at 116 South Osage street, at a bargain if sold at once.—F. Taylor Cain.

WAIT!!

Not a dollar's worth of spring and summer woolens were sold in the bankrupt stock sale last Saturday.

Scores of patterns were many seasons old, because I was too conscientious to try to sell old for new goods. Among the lot were many into which moths had eaten.

These conditions were deplorable—no customer of mine was ever asked to even look at any pattern in this accumulation, which was all included in the bankrupt stocks and bought by the present owner.

Don't be misled into buying old stock for new, as I honestly state to you that not a dollar's worth of new spring goods was sold in the sale, because I was not in a financial condition to buy at that time.

I WILL REOPEN
At My Old Location on or About
APRIL 15th

I leave Friday of this week for New York City. Eastern capital is behind me, and I will buy the largest, most varied and up to the minute stock of woolens for Spring and Summer, 1909, that was ever brought into Central Missouri.

Hundreds of old patrons will welcome this step, and have confidence in my ability to give them superior values and perfect workmanship.

With plenty of money behind me, furnished by Eastern capitalists who also have confidence in my integrity and ability, I can secure liberal cash discounts, and can give greater values than ever before.

PLEASE WAIT

Watch developments in my old location, which I will re-open about April 15th.

Oddity of Dreams.

"Nobody ever feels pain in a dream," said a psychologist. "Rage, terror, joy, grief—these emotions stab us as poignantly in dream as in reality. But physical pain, no. I have interrogated 2,000 persons, and none of them ever suffered dream pains. Yet they have dreamed of dreadful motor accidents, tortures, death. One young girl, indeed, dreamed time and again of being eaten alive by cannibals; yet even in that horrible nightmare she felt no pain."

Making a Fine Character.

The sweetest bread that any man or woman ever ate is that which is won by their own energy, or deserved by their usefulness. Whether labor be that of the hand or the head, there is dignity in it.

Do not stand around with arms akibbo until occasion tells you what to do; don't live in hope with your arms folded. Fortune smiles on those who roll up their sleeves, put their shoulders to the wheel and push!

To begin at the very foot of the hill and work slowly up to the top may be a very discouraging process, but it is precisely at this spot where so many begin to spoil their lives.—Exchange.

A Remarkable Race.

The Lapps are very fond of stimulating drinks; they think nothing of drinking fifteen or twenty cups of coffee a day, while their consumption of punch is on a vast scale. It is no uncommon thing to see numbers of helplessly-drunk natives in the streets of Tromso, especially when the sale of reindeer flesh has been profitable. Yet robbery and, indeed, crime in general are practically unknown among them; the innate honesty of the people is quite extraordinary.—Wide Awake Magazine.

Medicine in the Sea.

The sea, according to certain scientists, can furnish not only nourishment, but medicine. A distinguished French practitioner prescribes the drinking of sea water as a cure for diabetes, the water being aerated in order to remove its impurities and, to some extent, its nauseous flavor. It has also been administered with success in cases of bronchitis and pleurisy. Experiments carried out on consumptive patients show that subcutaneous injections of sea water are beneficial, at all events in the early stages of tuberculosis. Bread made with sea water is said by those who have tried it to be most appetizing and nourishing.

Abjuring His Allegiance.

Judge Lowell of the United States circuit court in speaking before the Channing club the other night on naturalization cited many numerous instances of would-be citizens who had been coached for the examination before the court, but who fell down when an unexpected question was asked. "I asked a Turk," said Judge Lowell, "as to whether he understood what was meant when he swore to abjure all allegiance to the sultan."

"Sure," was the answer.

Specialty of Blind Physician.

There is at least one physician in New York who manages to do excellent work and maintain himself well without the use of his eyes. He is totally blind.

He has chosen for his specialty diseases of the chest, into which of course the best eyes in the world couldn't see. One of the compensations of nature has given him unusually acute hearing, which is especially valuable in his practice. Indian Baskets Tell Stories.

The making of Indian baskets is the work of the women of the tribe. Unhonored and unsung, unknown even to the daughters of her daughters, the Indian woman basket maker passes to her grave, leaving behind her a chain of woven books, each a volume in itself. The aboriginal basket maker puts into every piece of work she turns out as much of the history of her race as she knows and all of her own life, if she can express it in the set pictures or figures which have been handed down to her since basketry began.—The Bohemian.

Temperature.

The typhoid fever patient was looking very much disgusted with the world when the doctor arrived to pay his regular morning visit. He was convalescent, but didn't feel that way.

"Well," said the doctor cheerily, pulling off his gloves, "how is he today?"

"Oh, he's getting along finely," said the patient's wife. "He is all right now except his temperature."

"Huh!" grunted the patient bitterly. "Hell's all right, too, except the temperature."

ARGUES FOR GOVERNMENT

Special Attorney for United States Makes Argument Against Haskell.

Tulsa, Ok., April 7.—When the hearing of the case of Governor Haskell and other Oklahomans under indictment, charged with town lot frauds, was resumed today Sylvester Rush, special attorney for the government, opened his argument against the defendat's motion to quash.

He severely arraigned counsel for the defense and denied that he had attempted to bias witnesses at the grand jury investigation. He recalled that the grand jurors who had testified yesterday said hs conduct had, on the other hand, been proper.

It is believed that arguments will be concluded and Judge Marshall will render a decision on the motion to quash tonight.

NOT FOR NATIONAL BANKS

Attorney General Says They Can't Participate in Guarantee Law.

Washington, April 7. — Attorney General Wickersham, in an opinion submitted to the secretary of the treasury today, holds that the national banks of Kansas have no right to participate in the assessments and benefits of the bank depositors' guaranty fund, under the provisions of the recently enacted law by the state on the same terms and conditions as apply to state banks. The decision says that only an act of congress can confer such power on national banks.

Rheumatism

I have found a tried and tested cure for Rheumatism! Not a remedy that will straighten the distorted limbs of chronic cripples, nor turn bony growths back to flesh again. That is impossible. But I can now surely kill the pains and pangs of this deplorable disease.

In Germany—with a Chemist in the City of Darmstadt—I found the last ingredient with which Dr. Shoop's Rheumatic Remedy was made a perfected, dependable prescription. Without that last ingredient, I successfully treated many, many cases of Rheumatism; but now, at last, it uniformly cures all curable cases of this heretofore much dreaded disease. Those sand-like granular wastes, found in Rheumatic Blood, seem to dissolve and pass away under the action of this remedy as freely as does sugar when added to pure water. And then, when dissolved, these poisonous wastes freely pass from the system, and the cause of Rheumatism is gone forever. There is now no real need—no actual excuse to suffer longer without help. We sell, and in confidence recommend

SALOON THOUGHT NO. 116.

Noble County, Ohio

"The census of opinion among business men of this county is that the voting dry is one of the greatest factors for increased business the present day affords, and many business men who were doubtful of the result are now loud in their praise for no saloons. They say they do more business and collections are much better. Working men that formerly went to the saloons to have their checks cashed on pay day night, are now seen with their wives looking into windows of dry goods stores, furniture and carpet stores, and as the saloon is gone, and they do not loaf around after getting their checks cashed, but spend much of it for useful articles for the comfort of their families.

We well know to do away with the saloons does not do away with ALL the drinking, but anyone knows it does away with the licensed resort.

Loafing around can not be as much, and as liquor is more difficult to get, many let it go, and after the saloon is gone, many working men cash their checks in stores and business houses, and while there buy more or less. One saloon in Sedalia recently cashed nearly $5,000 on one pay day night, and when you think we have about thirty saloons, what did they ALL get, and there are BUSINESS men that think this is a help to THEM.

RUMBLINGS OF THE RAIL

MISSOURI LINES TO CONFER WITH BOTH THE SENATE AND THE HOUSE.

COACH CAB AND CABOOSE ITEMS

Matters of Interest Picked Up From Various Sources For the Benefit of Democrat-Sentinel Readers.

A committee of the passenger representatives of the Missouri lines will go to Jefferson City today to confer this evening with the senate committee, and on Thursday morning with the house committee, to present their objections to house bill No. 1164, says the Globe-Democrat of this morning.

The bill was introduced by Representative Speer, and it provides for a law regulating the charges for carriage of passengers by railroads and imposing penalties for violation thereof.

Section 1 of the bill specifies that no railroad corporation shall, directly or indirectly, charge more for the transportation of passengers over its road within the state than is charged for transportation of passengers over its road for a greater distance. Neither shall they charge a greater amount per mile for transportaion over any part of their line than is charged per mile for an equal distance on any other portion of their line in the state it being further provided that this shall not apply to excursion or commutaion tickets sold by the road.

Object to Train Inspectors.

While neither side will talk, according to current rumor, it is probable that every American passenger conductor employed by the merged roads of Mexico will either resign or submit to a daily checking up of their accounts by Mexican train inspectors.

The latter officials were put on all trains on April 1 over the vigorous protests of the conductors. It is declared the latter have asked that the inspectors be removed before the end of this month or the Americans will resign. The railroad officials have told the men to resign if they see fit. However, there will be no strike.

The struggle is being watched with great interest by railway men in Mexico, many of whom are Americans. Neither the conductors nor the railway officials will admit the truth of the rumors, which are, however generally credited.

Court Upholds 2½-Cent Fares.

In the United States court of appeals at New Orleans Tuesday the injunction ordered by Judge Thomas G. Jones in the United States district court at Montgomery, Ala., restraining the state railroad commission from putting certain rates into effect was dissolved.

The opinion of the circuit court of appeals was concurred in by Justice Shelby and Justice McCormick. Justice Pardee dissenting.

The litigation grew out of the enactment of laws in 1907 which provided for a maximum passenger rate of two and one-half cents a mile and a material reduction of freight rates on railroads in Alabama.

Missouri Pacific Earnings.

A New York dispatch reports the following railway earnings:

Missouri Pacific—Fourth week of March, $1,405,000; increase, $102,000; month, $3,747,000; increase, $429,000; from July 1, $33,822,688; increase, $183,582.

Central Branch Missouri Pacific—Fourth week of March, $46,000; increase, $4,000. month, $144,000; increase, $18,000; from July 1, $1,311,974; increase, $132,083.

Latest Rumor on Time Card.

The latest rumor in regard to the new time card of the Missouri Pacific is that Lexington branch trains Nos. 621 and 622 will run no further west than Myrick, and River route trains Nos. 5 and 6 will be substituted for the trains to do business from Myrick to Kansas City.

Wearisome Words.

There is nothing tires one more than words, when they clatter like a loose window shaken by the winds. A talkative fellow may be compared to an unbraced drum, which beats a wise man out of his wits. Surely nature did not guard the tongue with the double fence of teeth and lips, without meaning that it should not move too nimbly. When a scholar full of words applied to Socrates for instruction, the latter demanded of him a double fee! one to teach him to speak well; another to teach him to hold his peace.—Owen Feltham.

Where to Pat a Horse.

A horse lover, who is also learned in the ways of horses, has been trying to induce kindly disposed persons who pet horses to do so in a manner that will give the animals pleasure. Most persons stroke the horse's nose, an operation which only a well behaved animal will tolerate, and, even he cannot be said to get satisfaction out of such caressing. Gentle rubbing over his eyes or up between his ears gives him great pleasure, because here are certain nerve centers that are stimulated by this friction. Most of those who know how to pet a horse properly were brought up in the country and thus learned to know the horse as city boys can never do.

What Kind of a Bed Do You Sleep On?

We should ask, what kind of a Mattress? for that's where most of the comfort comes from. If yours don't just suit you, try one of these. They are made of felt, built up in layers, and can not lump up or get hard; the tick is a good old fashioned stripe that won't fade or tear, and will wear for years. They are plump and soft, look good and feel good when you sleep on them, and cost so little more than a poor mattress you can't afford to do without one.

KYRLE BELLEW, AGED 50

THIS IS BIRTHDAY ANNIVERSARY OF WELL KNOWN ACTOR AND MATINEE IDOL.

WAS BORN IN CALCUTTA APRIL 7, 1857

His Father Was a Clergyman—The Son Engaged in Journalism, but Abandoned It for Life on the Stage.

New York April 7.—This is the birthday of the well-known actor and matinee idol, who has led a life off the stage in settings as romantic as any of the settings in which actors revel on the boards.

Kyrle Bellew was born in Calcutta in 1857. His father, far from being a member of the "profession," was the Rev. J. C. M. Bellew, chaplain of a Cathedral in Calcutta.

Kyrle Bellew, thirsting for excitement, joined the English navy as a youth still in his teens and served seven years as a cadet.

Growing restless under the monotony of the service, and being seized with the gold fever, he left the navy to try his luck in the gold fields of Australia. Not striking pay dirt, his active nature lacking the patience to wait for better luck, he soon left the quest to try a journalistic career.

After meeting with moderate success in journalism he became interested in theatricals, and having succeeded in interesting others in his ability, he returned to England and made his stage debut at the Theater Royal in Brighton.

At last he found his proper calling. He soon became a leading man and star in London. But the merry chase of the golden emolument led him across the Atlantic and in October, 1885, he was leading man at Wallack's theater, in New York. He subsequently made a grand tour of all the English speaking countries, starring jointly with Mrs. James Brown Potter in legitimate drama.

But the stage did not satiate his thirst for glory, and for two years he became the intrepid explorer, heading an expedition into Queensland, in 1900-2. With the laurels of a discoverer he returned to the stage in October, 1902, and has starred every season since.

Owing to his active interest in exploration he was made a Fellow of the Royal Geographical society in England and is a member of several noted London clubs. To add another vocation to the list, be it said that he also met with some success as an author, his best known works being Yvonne, Iolande, Hero and Leander, Charlotte Corday and also several adaptations.

GOOD ROADS MOVEMENT

IS BEING BOOMED BY TRANS-CONTINENTAL RACE FROM NEW YORK TO SEATTLE.

SETTLED THAT IT IS TO START IN JUNE

Legislature of State of Washington Has Appropriated $120,000 and Idaho $50,000 for Good Roads Making.

New York, April 7.—Questions as to the beneficial purposes to be achieved by affairs like the trans-continental race from New York to Seattle, which is to start in June, seems to be answered decisively by the good roads projects which already have been initiated as a result of the announcement of the race.

A week ago it was announced that the Washington legislature had appropriated $120,000 for road-making in Eastern Washington, and now Governor Brady has induced the legislature of Idaho to set aside $50,000 for the continuation of the trans-continental highway through Boise and Pocatello.

This trans-continental highway has long been a dream of motorists. It has been a part, the pleasant, brief part of nightmares, of the dreams of those who have actually made such trips as the one the pathfinding cars are now engaged in mingled with the dream terrors, previously encountered in good waking earnest of the Mojave deset and other choice spots along the road. But now there is hope that it may be more than a dream.

The exposition commissioners of the various states now working on the Alaska-Yukon-Seattle exposition have been urged to take the matter up with their state governments, and the intense interest in the New York Seattle race has caused the scales to drop from many eyes that have not heretofore been able to see the advantage of good roads.

TAKES HER LIFE FOR LOVE

In Letter to Doctor Nurse Tells of Her Affection.

Albany, N. Y., April 7.—Disappointed in love, Ethel C. Shaw, an attractive woman, about 28 years old was found dead in her room in the Ten Eyck hotel yesterday. Death was due to an overdose of morphine and strychnine, taken hypodermically. Miss Shaw was a nurse from New York. She has a brother living in Montreal.

The woman left several letters, including one addressed to Dr. G. Scott Towne, health officer of Saratoga, in which she said:

"My Dear Boy—Unfortunately I have gotten very fond of you, so the breaking of our engagement means to me complete wreckage. Don't get another girl to love you.

"No mother has a right to spoil a son's life. When two people marry they should be given a chance. Every woman knows this."

Governor Shallenbarger Sgns the Bitterly Opposed Measure.

Lincoln, Neb., April 7.—Governor Shallenberger signed the daylight saloon bill yesterday. The measure forbids the sale of liquor except between 7 o'clock in the morning and 8 o'clock in the evening. It goes into effect July 6.

Omaha business men bitterly opposed the measure.

WANTS RELIGION LET ALONE

Mr. Stilwell Not Pleased With Stories of Science Cures.

Chicago, Ill., April 7.—President Arthur E. Stilwell, of the Kansas City, Mexico and Orient railway, who arrived here last night to speak at the Association of Commerce dinner today, said his road would be running trains from Kansas City to San Angelo, Texas, by August 1, and that he expected the Pacific coast extension to be completed next year.

"I wish to goodness," exclaimed Mr. Stilwell, "that the papers would let my religion alone. I am not the only Christian Scientist in the world, but one would think so, to read the papers, which have been printing Science cure stories about me every year for the last twenty years."

Mr. Stilwell for the past three weeks has been undergoing treatment in a New York hospital for throat trouble.

The belief that he was murdered was greatly strengthened when a fracture of the back of his skull was discovered. It is thought the blow was dealt with a heavy oaken bar.

SLOAN TO GUARD PRESIDENT

Illinois Man Will Not Get Appointment as U. S. Marshal.

Washington, April 7.—James Sloan, who was the body guard of President Roosevelt during much of his administration, probably will continue to act in that capacity for President Taft, by assignment of Chief Wilkie, of the secret service.

At the beginning of the present administration it was reported Sloan would get an appointment as United States mashal for the Eastern district of Illinois. It was explained Sloan was a constituent of Speaker Cannon, hailing from Danville. It was further explained the speaker and the Illinois congressmen were entirely friendly to the proposition of the appointment.

It now develops that Mr. Roosevelt asked Mr. Taft to select Sloan.

Judge Long imposed a fine of $500 upon Marion Butler and $250 upon Lester Butler. A motion for a new trial was overruled and notice of appeal to the supreme court was given, the defendants being released on bail in the sum of $500 each.

FIGHT ON LIQUOR EXPECTED

Hot Campaign Looked for in Florida Legislature.

Tallahassee, Fla., April 7.—With a possible battle in prospect the Florida legislature convened here last afternoon.

Although prohibition forces have waged a vigorous campaign, their opponents hope to block all "dry" legislation from the outset, and the organization of the two houses will furnish the first clash.

Florida's proximity to prohibition states has caused a large liquor trade to grow up within the state, which makes the fight of the prohibitionists of considerable moment

Minneapolis, Minn., April 7.—With blazing torch in hand and song of gladness on his lips, Oliver Olson was found, naked and unaabshed, sitting on top of a tombstone in Calvary cemetery, St. Paul, early yesterday morning and taken to the station, where it was found that his mind was unbalanced. He is 32 years old.

Olson told the police that he had attended every one of Gipsy Smith's evangelistic meetings in St. Paul and that he had experienced entire sanctification through faith. Asked as to what he was doing in a cemetery, he replied that he was "waiting to be translated."

A policeman, passing the Calvary cemetery, saw the light of Olson's torch and found him. He was singing, "I Am Coming, Lord, Coming Now to Thee," at the top of his voice.

THE PLANTING OF TREES

ABOUT 700,000 WERE PLANTED DURING THE WINTER AND SPRING OF 1907.

HAVE EIGHT GOVERNMENT FORESTRIES

These Eight Stations Contain 9,000,000 Trees From 1 to 3 Years Old—Appropriation Is One Cent an Acre.

Washington, D. C., April 7.— The trees used in the national experiments in reforestation are grown at eight government nurseries in existing national forests out west. These eight stations now contain 9,000,000 trees from one to three years old.

The preliminary stage of national forest planting within the national forests is now past, and several of the planting stations have produced trees of sufficient size to plant directly on the permanent site. About 700,000 trees were planted during the winter and spring of 1907.

At the nursery in the Dismal river national forest more stock has reached an age suitable for planting than at any other station. This nursery contains approximately 2,500,040 trees.

At present there are about 1,000,000 trees for planting in the sand hills. The species largely in use up to this time are western yellow pine and jack pine. Other species, chiefly the Scotch pine, Norway pine and Douglas fir, are being tested in the nursery and on experimental plantations.

The state forests of Saxony, comprising 450,000 acres, are in charge of a forestry bureau at a yearly expense which averages $3 for each acre, but such is the extent and the value of the timber and other products that the net yearly revenues average $5.30 an acre, after deducting all expenses.

The appropriation of the United States for the forestry bureau is so insignificant that it amounts to a little less than 1 cent for each acre.

TO INLAND AUSTRALIA FOR YOUR HEALTH

ROUND TRIP ONLY $1.00

If you are a catarrh asthma or hay fever sufferer, what would you say if the above offer was made to you?

How would you like to go to the mountainous forests of pine and eucalyptus where catarrh and asthma do not exist? Where people do not have to hawk every morning, to spit out the lump of disgusting mucous? Where the healing, antiseptic balsams purify the air and kill all germs?

You can't go to this ideal spot of course. You haven't time, and possibly not money. But you can, for $1, bring the healing balsamic air from these forests right to your home; you can kill the germs of catarrh at home, without losing a minute's time.

Ask W. E. Bard Drug Co. about Hyomei, the Australian dry air cure. Get an outfit, which includes inhaler, for $1, breathe the same air that you would find in Australia, and if it does not heal the raw membrane and cure you of catarrh, snuffles, cough, cold or asthma, you can have your money back.

STEEL TRADE INCREASING

Railroads in Market for 100,000 Tons of Bridge Material.

New York, April 7.—Within two weeks the steel authorities have agreed that the demand for structural steel was increasing, but the building trade had supplied the greater part of the gain in orders and inquiry.

Yesterday it was reported on good authority that the railroads were in the market for more than 100,000 tons of bridge material.

One of the southern roads at the beginning of the trade war trebled its appropriation for bridge work, entirely on the idea that the time to do such work was when materials were cheap, and other railroad managers seem to be taking up the same policy.

One or two of them have placed orders on a declining market, buying on a scaledown, and in both railroad and steel circles it is wondered if this will not turn out to have been the wisest policy.

WOMEN AS POLICEMEN

Bayonne, N. J., to Appoint Nine "Guardian Mothers."

Bayonne, N. J., April 7.—Police women are to be a reality here. Having been authorized by the city council at the suggestion of Mrs. Julia Goldzier, nine volunteers will do duty policing the park during the summer.

The feminine officer will not bear the common name of police woman, but will be known as guardian mothers and will not wear uniforms, as was at first reported. Their duty will be not so much to make arrests, but to instill a spirit of politeness in the youngsters of Bayone.

They will urge the children not to make noise, to be gentle and to rise always and give their seats to elders. The guardian mothers will do duty on alternate afternoons and will serve without pay.

Someone has proposed that they carry the proverbial slipper or paddle instead of a club, but this question has not been officially settled.

Nothing distinguishes a home more. Stamps it as the abode of good taste and judgment than the right wall paper in the right place. Permit uh to show you how easily it is accomplished. "WEST'S" for Wall Paper.

WORLD'S COW QUEEN DIES

Pedro's Estelia, Native Missourian, Produced 712 lbs. Butter in Year.

Columbia, Mo., April 7.—The blue-ribbon Jersey cow of the world died on the Missouri agricultural college farm at Columbia. She fell in a ditch Monday afternoon and succumbed to the injuries she sustained.

Her name is Pedro's Estella, 3½ years old. Her mother and grandmother were Missourians, and her great-grandmother was a native of Massachusetts. During one year she produced 712 pounds of butter. This is more than 100 pounds more than the previous world-beating Jersey produced in the same time.

This one cow would have supplied the tables of seven average families of five persons each with butter during the entire year, would have furnished skimmed milk for all of the families to drink and employ in cooking, and would have furnished fresh buttermilk for all the members of the family.

Pedro's Estella could have kept an average student in the University of Missouri, paying all of his expenses for books, clothing, tuition and for the food she consumed.

The hide of Pedro's Estella will be used by the college of agriculture in demonstrating the profit to be derived from keeping high bred cows.

1,000 CHICKENS ROASTED

Harlem Negroes Saddened When Poultry Is Burned to Crisp.

New York, April 7.—Harlem negroes are sad after witnessing the destruction of 1,000 fat chickens that were roasted to a rich brown and then burned to a crisp in a fire which destroyed property at the foot of East 124th street last night.

The chickens were the property of H. L. Goldberg and were confined in his poultry yard. Several negroes in the crowd excitedly volunteered to rescue the fowls before death came, but they were held back by the police reserves.

MAKING OF ONE'S SHOES

IN OLD DAYS COBBLER AND HIS ASSISTANT WOULD SPEND DAY AND ONE-HALF.

TAKES JUST 4 MINUTES TO MAKE 'EM NOW

It Is Claimed the Actual Labor Cost Is 35 Cents—Some Factories Turn Out 10,000 Pairs of Shoes Each Day.

Chicago, April 7.—How long would it take you to make a pair of shoes, do you think? You probably had not better begin it, especially if you need them soon.

Even a cobbler, in the old days, working with his assistant, would spend a day and a half making a pair of shoes, and the cost would be about $4. But now, of course, shoes are made by machinery, and it is astonishing to hear how quickly they are made.

It takes just four minutes to make a pair of shoes! And the labor cost is 35 cents.

Of course, no one makes the whole shoe nowadays. There are a hundred different men making different parts of it, and each one does the same thing over and over again, and each man learns to do his particular work especially well and quickly.

And you should see the buttons sewed on. A boy takes the part of the shoe where the buttons are to go and fits it into a machine, throws in a handful of buttons quite carelessly, turns the machine and in no time out comes the piece of leather with all the buttons exactly in the right place.

No wonder some factories turn out ten thousand pairs of shoes in a day.

SHOT FOUND IN APPENDIX

Surgeons Discover Unusual Condition in Operation.

St. Joseph, Mo., April 7.—In an operation for appendicitis at Ensworth yesterday, surgeons removed an appendix which is regarded as something of a curiosity.

There were two structures in the organ dividing it into three compartments, and in one of these were found a quantity of small seed and two No. 7 birdshot. The patient, who rallied after the operation, is Mrs. Kate Moore, wife of William H. Moore, 2721 Farnon street.

"We spent several months in Arizona three years ago," said Mr. Moore, "and while there we ate a great many quail. That may account for the shot in the appendix. I can't think of any other explanation."

The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, brick-dust or sediment in the urine, head ache, back ache, lame back, dizziness, sleeplessness, nervousness, or the kidneys themselves break down and waste away cell by cell.

Bladder troubles almost always result from a derangement of the kidneys and better health in that organ is obtained quickest by a proper treatment of the kidneys. **Swamp-Root** corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and immediate effect of Swamp-Root, the great kidney remedy is soon realized. It stands the highest because of its remarkable health restoring properties. A trial will convince anyone.

Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, and don't let a dealer sell you something in place of Swamp-Root—if you do you will be disappointed.

THE BURGLAR POLICY

Burglary Insurance Association in Session in New York.

Baltimore, Md., April 7.—A meeting of the Burglary Insurance association was held here today with representatives from most of the principal burglary insurance companies in this country present.

The principal topics of discussion were the advisability of raising the rates in New York city from $12.50 for each $1,000, and the unifying of the clauses in the policies issued by the different companies.

It was the concensus of opinion that the night hold-up rider on bank policies should be eliminated. Definite action on the proposed standard residence policy will probably be taken this afternoon.

People past middle life usually have some kidney or bladder disorder that saps the vitality, which is naturally lower in old age. Foley's Kidney Remedy corrects urinary troubles, stimulates the kidneys, and restores strength and vigor. It cures uric acid troubles by strengthening the kidneys so they will strain out the uric acid that settles in the muscles and joints, causing rheumatism.

Chicago, April 7.—That George W. Wickersham, now attorney general of the United States, and Louis C. It is estimated that the legal services for which Wickersham and Krauthoff received this enormous sum occupied twenty days of their time in Chicago. Thus each attorney was paid at the rate of $10,000 a day.

Mayor J. L. Babcock and Officer Howard Wood Headed Off the Game —Several Educated Ladies Among the Victims.

From Wednesday's Daily.)

Twenty-one well known Sedalians, the majority of whom are ladies, have found themselves victims of a swindler, whose apprehension was brought about through the efforts of Mayor J. L. Babcock and E. H. Wood, a police officer.

The fellow came to Sedalia last Thursday night and registered at the Huckins hotel as "J. Carmody." He appeared to be about 45 years old.

He said he represented a Philadelphia, Pa., firm and was soliciting subscriptions at 50 cents each, always payable in advance, which entitled the subscriber to one magazine a month for one year, the subscriber having his selection of a list of thirty-five magazines, which Carmody said he represented.

He appointed Mrs. Lena Townsend, 320 West Tenth street, local agent, with authority to appoint subordinates. Her salary was to be $10 per week, while her agents were to receive 50 per cent commission.

Carmody visited various institutions in Sedalia and collected a total of $5.25 from the twenty-one victims, one-half of the amount he was entitled to, he having deducted the agent's commission of 25 cents on each subscription.

Carmody was working arduously, interesting many people, when Mayor Babcock learned of him. He detailed Officer Wood to locate the man.

Saturday afternoon last Carmody was hailed by the officer and taken to police headquarters, where $2.75 was found on his person, but not a single paper or credential to verify his statement of being strictly "all right" could he furnish.

Carmody was not arrested, but deterred in his work, and he left town that night. Incidentally, he left a $7 board bill at the Hotel Huckins.

In the meantime twelve of the victims of Carmody's scheme had planned to meet last Monday morning to organize a club, each of the twelve members to pay 50 cents, which entitled them to a year's subscription to any magazine they desired, their plan being to exchange magazines with each other.

While the ladies were in session, and just as they were about to perfect their organization, information reached them that they had been victimized, and that instead of reading all the magazines they wanted for 50 cents a year they will be compelled to pay the standard price, as heretofore.

Mayor Babcock still has possession of the $2.75 taken from Carmody's person, and on Thursday afternoon he intends to pay a dividend to the ladies victimized.

A BLAZE IN A COLLEGE

Prof. G. E. Hoover's Hand Burned and Overcoat Ruined.

(From Wednesday's Daily.)

The scholars of the commercial department of Central Business college were considerably exercised at 7 o'clock Tuesday evening, when a gas lamp hanging in the center of the department caught fire from an overflow of generating gas.

Prof. G. E. Hoover discovered the fire at its beginning, and seizing an overcoat belonging to Asa Biggerstaff, extinguished the blaze, after he had slightly burned his hand.

The overcoat was ruined.

FORMER SEDALIA PASTOR

The Rev. J. M. Plannette Preached at Leavenworth, Kas.

The Leavenworth, Kas., Times of Tuesday had the following of local interest:

"Rev. J. M. Plannette occupied the pulpit of the Baptist church Sunday, and those who heard him spoke most enthusiastically of his discourses.

"Rev. Plannette possesses an attractive personality and has a most forceful and logical way of presenting and forcing home the truth. His theme yesterday morning was, "Lessons From the Sacred Mountains," and at night, "Human Necessity and Divine Sufficiency."

Rev. Plannette comes from one of the leading churches in the southern part of the state (Coffeyville) and by the earnest solicitation of the members here has agreed to remain over and preach again Easter Sunday, both morning and evening.

MEMBERS OF SEDALIA CEMETERY ASSOCIATION MET LAST NIGHT.

HEARD REPORTS OF THE WORK BEING DONE

The Grounds to Be Beautified Under the Supervision of Sid J. Hare, a Landscape Gardener of Kansas City, Mo.

(From Wednesday's Daily.)

The members of the Sedalia Cemetery association met Tuesday night at the residence of one of the members and heard reports of the work done on the new addition to the city's burying ground.

The reports showed that since the board was established the place has been materially beautified and improved, and the present plans are to make it one of the most beautiful cemeteries in the west.

Under the direction of Sid J. Hare, a landscape architect of Kansas City, plants and shrubs will be planted in the new addition this week, and already connections with the City Water Co.'s mains have been made.

The association is very desirous that all owners of lots in the new addition pay the money which is due the association, as a considerable sum is to be expended at once, and in order to meet the expenses funds must be provided.

W. A. Fast is chairman of the record committee of the association, and all funds may be paid to him.

THE LADIES' MUSICAL CLUB

Meeting Held Today to Arrange for the May Festival.

(From Wednesday's Daily.)

The members of the Ladies' Musical club met at the Elks' club rooms this morning and completed arrangements for the grand May festival to be given at the Sedalia theater on the night of May 7.

Prof. Goetze, of Moberly, attended the meeting and will return to Sedalia next Monday to make further arrangements.

The festival will be the grandest musical event ever given in this part of the state.

An orchestra consisting of thirty-five pieces will be engaged, also four soloists from Chicago, who will do concert and solo work. In addition, the Ladies' Musical club will take part in the program.

Musically-inclined citizens of Sedalia and others as well are highly enthused over the new musical feature here, and from present indications a record-breaking crowd will be present.

HIGH SCHOOL EXERCISES

A Pleasing Address by the Reverend Harold Cooper.

(From Wednesday's Daily.)

The weekly devotional hour at the High school was held this morning, when Attorney Lawson and Rev. Harold Cooper took part.

Two splendid solos were sung by Mr. Lawson, accompanied by Miss Jessie Smith

Rev. Cooper spoke in a very interesting manner on "Experiences on an Ocean Liner."

The students listened attentively as he described scenes at sea, and were thoroughly appreciative of the amusing incidents.

The address was closed with an appeal to the higher life. Excellent music was furnished by the High school orchestra.

THAT 2 1-2 PR. CT. TO CITY

PRESIDENT LATIMER, OF HOME TELEPHONE CO., MAKES EXPLANATION.

WILL CARRY OUT TERMS OF FRANCHISE

The City Can Have 2½ Per Cent of the Gross Earnings Every Saturday Night, if the Authorities Desire.

(From Wednesday's Daily.)

"Regarding the payment of 2½ per cent of the gross receipts of the Home Telephone Co. into the city treasury," said W. A. Latimer, president and who is also cashier of the Third National bank, to the Democrat-Sentinel today, "I will say that the franchise governing the payment of the same reads as follows:

"'Section 9. It is herein agreed that the said Charles G. Chaddock and Fred A. Churchill will pay to the city of Sedalia two and one-half (2½) per cent of the gross receipts for the term of its franchise.'

"The Home Telephone Co. is owned by home people, Mr. W. H. Cloney and myself being the principal stockholders.

"We are law abiding, and have no thought of doing anything but living up to the franchise in every respect, and in no way to take any advantage of technicalities.

"We owe the city of Sedalia 2½ per cent, as per terms of franchise, and will pay the same at whatever time the city council says the same is due, even if it is every Saturday night.

"As the present franchise of the Home Telephone Co. was the first to give the city 2½ per cent of its receipts, it certainly isn't going to be the one to repudiate its own acts."

WILL MEET HERE IN 1910

S. E. PRESS, OF PALACE CLOTHING COMPANY, SECURES CONVENTION.

"BROTHERHOOD OF AMERICAN YEOMEN"

St. Louis, St. Joseph and Moberly Were Aspirants for the Next Convention, But Sedalia Captured the Prize.

(From Wednesday's Daily.)

S. E. Press, of the Palace Clothing company, returned last night from Kansas City, where, Tuesday, he attended the state convention of the Brotherhood of American Yeomen, and succeeded in landing the next state convention for Sedalia.

Two hundred delegates attended the session and there were four towns after the next convention, namely, St. Louis, St. Joseph, Moberly and Sedalia.

On the first vote St. Louis received 68 votes to 81 for Sedalia, while St. Joseph received 41 and Moberly 19. The lowest two towns were dropped and on the second ballot Sedalia was unanimously selected for the next meeting.

The Sedalia convention will be held in April of 1910, the date to be selected by the executive committee. More than three hundred delegates will attend.

The Brotherhood of American Yeomen is a fraternal organization comprising about 104,000 members scattered over twenty-six western states, Missouri ranking second with a membership of 9,000.

In Kansas City alone there are eleven homesteads, with 3,000 Yeomen, the Gate City lodge being the largest, numbering 1,400.

Postoffice Auditor M. A. Pursley, for the past four years has been the Missouri representative on the national board of directors, and Dr. J. Herbert Smith assistant supreme medical director.

An interesting figure at the Kansas City meeting was Mrs. Emma R. Waltrip, of St. Joseph, Mo., the only supreme officer of the Brotherhood who is a woman. She is secretary of the national body.

"It isn't a new honor for me by any means," said Mrs. Waltrip, "as I have been a supreme officer of several organizations, none of which, however, are growing more rapidly than the Brotherhood of Yeomen."

The delegates were given ritualistic instructions last evening, after which the convention closed.

STUDENT TO BE HONORED

PRESIDENT TAFT WILL GIVE CONSULAR POST TO AN EGYPTIAN YOUTH.

EDUCATED AT THE M. S. U. AT COLUMBIA

Mr. Taft, Through Aid of Stone and Warner, Will Smash Roosevelt-ian Policy by Naming Naturalized Citizen.

Washington, April 7.— President Taft, after just a fleeting examination of one of the "Roosevelt policies," has tossed it into the discard.

President Taft announced that the former rule applied in the Roosevelt administration forbidding the appointment of naturalized citizens to diplomatic or consular positions under the United States will no longe be enforced, and that the nomination of a naturalized citizen to such a position will be sent to the senate shortly.

The web of the circumstances back of the change trails to Egypt, and involves Senators Stone and Warner, of Missouri; Senator Cullom, of Illinois, and Senator Perkins, of California.

George Salem, native Egyptian, educated at Missouri University, winner of a degree at the University of California, who speaks English, Italian, French, German and Arabic fluently, now 26 years old, is the man who will profit by the change of administration and policy.

He probably will be made assistant secretary of the American legation in Constantinople.

Left an orphan at an early age and possessing a small income from his father's estate, Salem came to this country. He drifted to Missouri and studied at the Missouri University.

There he won the friendship of Missourians directing University affairs, and, among others, Gardiner Lathrop, who has been particularly active in the young man's behalf.

Salem's one ambition has been to get back among his native people as the official representative of the United States.

To that end, his fiends in Missouri, other friends at the University of California and still others whom he won while working recently in Chicago, interested the senators in his case. On coming to Washington, Salem became personally acquainted with Senator Stone, who thought him deserving.

Mr. Stone, on learning of the policy operating against natualized citizens, thought the rule very unjust. He made an issue of the matter, calling it to the attention of Secretary Knox and President Taft.

THE NEW WHITE HOUSE CHATELAINE.

The social world has watched with much interest the movements of the new mistress of the White House, and a general opinion prevails, in Washington at least, that Mrs. Taft will introduce many radical changes. Those who knew her best is her official life in Washington and the Philippines clearly foretold what would happen—the taking upon her own shoulders the full responsibility of the social side of Mr. Taft's administration as president.

Under the regime of the former gentle chatelaine of the White House there was a social secretary who shared in all the social pleasures as well as attending to the clerical duties of the position. But Mrs. Taft has informed the social world that she does not expect recognition of her secretary; that she is employed to perform the duties of clerk and that she will not appear at all in the social lists of the White House. For this position Mrs. Taft has selected a young woman, a German by birth, of gentle parentage, who speaks and writes German fluently, as well as French and Spanish and English, of course, so that, through her clerk, the president's wife will be able to address communications to foreigners in their native or familiar tongue.

The president's wife is constantly in receipt of the greatest quantity of letters, including appeals for help, letters from societies and organizations, from business men and women soliciting trade, requests for autographed pictures, etc., etc., and to all of these answers will be either written or dictated to the secretary.

Mrs. Taft's personal correspondence she will attend to herself, as she has always done.

THE RESPONSIBILITY IS FIXED.

The city council will for the next year be composed of republicans, with the exception of one member, Mr. Olmstead, of the Third ward. The mayor, being also a republican, places the entire responsibility of municipal government upon that party. Of course, as has been said by this paper times without number, party politics should have no place in city affairs, but as these men have been selected as partisans it is impossible to divorce them from the organization that selected and elected them, and therefore their acts, whether good or bad, will be charged up to the party.

The Democrat-Sentinel wants a good, clean, progressive city government, regardless of which party furnishes the men that bring it about, and therefore it wishes the new councilmen every measure of success in fulfilling their public duties honestly, courageously and for the greatest good to the greatest number of the body politic.

If such success brings credit to the republicans, well and good, for it is indeed the poorest and meanest sort of citizenship that desires failure or inefficiency in public officials merely because those officials are of a different political faith.

What we want here is a greater, a better, a cleaner Sedalia, and if the republicans can and will give it to us, why, God speed and bless them in their work.

STOCKINGS NOT NEEDED.

Speaking of the Payne tariff law, it is held by some economists that the schedule is just the thing. According to their emanations, the stockings worn by people generally are superfluous raiment, and in proof of the argument the chorus girl and the hardy Scotch are cited as examples. When people raise a roar about the sugar the stand-pat statesman argues that in the good old days sorghum molasses was used for "sweetening," and calls attention to the fact that the people were supposed to be healthy beyond degree.

The same cheerful idiot says that the present day gloves are a delusion and a snare, and contends that the old fashioned red yarn mittens never split down the fingers like the present hand coverings do. He also says that people are too extravagant in their tastes, and calls the figures of the statistician to prove that boiled meat contains more nutrition than fried chicken.

Possibly this amiable stand-patter has never heard what happened to that ancient man who told the people they could eat grass. He might just as well go on and say that the country owes its development to the robber trusts, and that they must be protected even at the expense of the people of the land, who must pay an added cost for life's necessities to do it.

OLLIE JAMES WAS HEARD.

In a speech in congress, Ollie James, the towering giant of Kentucky, who will be remembered as having spoken in Sedalia last fall, indulged in a number of witticism on the tariff bill now before the house. He said he was pleased to note that fossils were on the free list. He considered that the present tariff bill, instead of "making the infant industries stand on their own feet, gives them the privilege of standing on everybody else's feet."

He was satisfied that when the Payne bill had been passed the trusts would be able to say: "We have looked it over, and thank God there is plenty of loot for us all."

In his address he took occasion to say that so far as the farmer and the working classes were concerned, the tariff bill was not only a delusion and a snare, but a consummate fraud as well. He also inquired anxiously of republican members as to what was meant by a "reasonable profit."

VENERABLE KIDS.

The New Jersey legislature is considering a bill to prohibit children under 16 years of age from attendance at theaters unless accompanied by their parents or guardians.

The nickel show has become a social problem in the east and it is in a way becoming a social problem in the west. Insurbordination to teachers and parents is not decreasing under the influence of film picture exhibits and flashy popular songs. Boy bandits are becoming more numerous than ever.

No wonder, exclaims the Milwaukee Evening Wisconsin, that the New Jersey solons think it time that radical action should be taken to keep young America from growing old too fast.

WORLD'S COW QUEEN DIES

Pedro's Estelia, Native Missourian, Produced 712 lbs. Butter in Year.

Columbia, Mo., April 7.—The blue-ribbon Jersey cow of the world died on the Missouri agricultural college farm at Columbia. She fell in a ditch Monday afternoon and succumbed to the injuries she sustained.

Her name is Pedro's Estella, 3½ years old. Her mother and grandmother were Missourians, and her great-grandmother was a native of Massachusetts. During one year she produced 712 pounds of butter. This is more than 100 pounds more than the previous world-beating Jersey produced in the same time.

This one cow would have supplied the tables of seven average families of five persons each with butter during the entire year, would have furnished skimmed milk for all of the families to drink and employ in cooking, and would have furnished fresh buttermilk for all the members of the family.

Pedro's Estella could have kept an average student in the University of Missouri, paying all of his expenses for books, clothing, tuition and for the food she consumed.

The hide of Pedro's Estella will be used by the college of agriculture in demonstrating the profit to be derived from keeping high bred cows.

We often wonder how any person can be persuaded into taking anything but Foley's Honey and Tar for coughs, colds and lung trouble. Do not be fooled into accepting "own make" or other substitutes. The genuine contains no harmful drugs and is in a yellow package.—Arlington Pharmacy.

ANOTHER HOME-COMING

'TIS TO BE HELD IN MILWAUKEE, WISCONSIN, ON AUGUST 3, 4, 5, 6 AND 7.

A POINTER FOR SEDALIA'S CELEBRATIO

The City Made Famous by the Schlitz Beer Expects to Raise $50,000 in Three Weeks to Defray the Expenses.

Milwaukee, Wis., April 7.—Plans for Milwaukee's big homecoming celebration on August 3, 4, 5, 6 and 7 gradually are assuming tangible form and the various committees are able to report work in various departments to be well under way.

Just at this tme the names of former residents of Milwaukee who might be induced to return for the celebration are wanted by the invitation committee. Each name and address is recorded in a large set of books, and to each address will be forwarded an invitation to the homecoming.

All these persons, no matter how far away, will be kept in touch with doings of the various committees and progress of plans, and literature will be sent from time to time to fully apprise each one just what may be expected in the way of entertainment and accommodation, together with other interesting notes.

A reproduction of the municipal flag, whose design has been accepted as a part of the official homecoming emblem and for use as the official flag, will appear on all homecoming stationery going out of headquarters.

The flag is blue, having in its center the letter "M" in white on a circular background of red, carrying out the "bright spot" idea the insignia of the Citizens' Business league, and familiar in many cities in which the league has been active.

Everybody here is boosting the whirlwind campaign to raise $50,000 in three weeks to defray homecoming expenses.

Court Upholds 2½-Cent Fares.

In the United States court of appeals at New Orleans Tuesday the injunction ordered by Judge Thomas G. Jones in the United States district court at Montgomery, Ala., restraining the state railroad commission from putting certain rates into effect was dissolved.

The opinion of the circuit court of appeals was concurred in by Justice Shelby and Justice McCormick, Justice Pardee dissenting.

The litigation grew out of the enactment of laws in 1907 which provided for a maximum passenger rate of two and one-half cents a mile and a material reduction of freight rates on railroads in Alabama.

Object to Train Inspectors.

While neither side will talk, according to current rumor, it is probable that every American passenger conductor employed by the merged roads of Mexico will either resign or submit to a daily checking up of their accounts by Mexican train inspectors.

The latter officials were put on all trains on April 1 over the vigorous protests of the conductors. It is declared the latter have asked that the inspectors be removed before the end of this month or the Americans will resign. The railroad officials have told the men to resign if they see fit. However, there will be no strike.

The struggle is being watched with great interest by railway men in Mexico, many of whom are Americans. Neither the conductors nor the railway officials will admit the truth of the rumors, which are, however generally credited.

RICH WOMAN IS IN JAIL

Husband Is in Sympathy With Suffragist Wife.

Chicago, Ill., April 6.—Mrs. Emma E. Kershaw, a woman suffragist and wife of a wealthy business man, occupies a cell in the county jail because she refuses to pay a judgment of $195, obtained by a neighbor, Mrs. Belle McClelland, who alleged Mrs Kershaw attacked and slandered her following a dispute over a living apartment owned by the Kershaws and occupied by the McClellands.

Mrs. Kershaw was seized on a body warrant during the absence of her husband. Declaring she would stay in jail six months rather than pay the judgment, if the prosecutor's husband was willing to pay the county that long for her board, Mrs. Kershaw left a note on the dining room table for her husband and accompanied the deputy sheriff to prison.

Otto Kershaw says he is in thorough sympathy with his wife's determination to suffer imprisonment rather than satisfy the judgment. He is planning to make her incarceration as comfortable as possible.

Judge Prescribes Switch and Parents Lay It On.

Atlanta, April 6.—Hattie Hood, aged 13 years, and Sallie Ogles, aged 17, were whipped in police court by order of Recorder Broyles, who had been appealed to by the parents of the girls to punish them for their unruly conduct. After hearing all the evidence in the case, the recorder said:

"A good whipping is what these girls need. That will do them more good than a fine. A great many girls might profit these days if they were given a taste of the switch."

The recorder then ordered straps to be provided, and while the girls were held by policemen the parents laid on with a good will. Witnesses say the whipping was well and completely done. Sallie Ogles was married some time ago, but is now separated from her husband.

"THE CORNFIELD SLUGGERS"

From Lamonte Defeated the Houstonia Ball Club.

Lamonte's famous ball club, "The Cornfield Sluggers," invaded Houstonia Sunday and "mopped up the earth" with the club at that village.

Higginbotham, one of the fastest amateur twirlers in the country, pitched phenomenal ball for Lamonte, while Davis, who pitched for Houstonia, was hit freely from the very start.

Twenty-seven was the total number of runs made by Lamonte, while Houstonia was not given a semblance of a chance in the run getting, only one man getting past third and he was cut off at the plate as he attempted to score.

What the Lamonte boys term a farmers' parade over the home plate was pulled off in elegant style, and had they so desired they could have made a million runs, more or less.

Lamonte wants games with classy clubs from anywhere.

Were Licensed to Wed.

(From Tuesday's Daily.)

A marriage license was issued this afternoon to Harry W. Hampy, of Smithton, and Alemia A. Rages, of Florence.

NOW HOME WITH A BRIDE

PIUS KIEL WINS BOUT WITH IMMIGRATION OFFICIALS FOR A YOUNG GIRL.

BROTHER PETER IS ALSO GLAD IT IS OVER

He Was Willing to Wed Her Himself, but Isn't Jealous About It—All Will Live on the Same Missouri Farm.

Brookfield, Mo., April 6.—Pius Kiel and his bride, formerly Miss Sybilla Lambert, of Germany, arrived Sunday from New York, where the girl was detained at Ellis Island for several days, awaiting the arrivl of Kiel from Brookfield.

As soon as Pius reached New York his brother, Peter, who had brought the young woman over from Europe, hastened here to attend to his business affairs, leaving Pius to wed the girl and come home more leisurely.

When Peter arrived in Brookfield it was found that however willing he might have been to marry Sybilla Lambert, the winsome immigrant, in case Pius had not cared, yet he cherished no jealousy against his brother when the latter came on as fast as steam could pull him to claim his promised bride.

When Peter arrived he said his brother and the girl would follow in a few days, but just when he was figuring they ought to be here he got a letter from Pius saying further complications had arisen, making it probable that the immigration officers would deport the young woman, and that in that case he would return with her.

Furthermore, that under certain circumstances the laws of Germany require that they remain in that country thirty days before the marriage ceremony could be performed.

Peter was in great distress when the glad news came that all difficulties had been surmounted and the marriage vows pronounced.

"They'll be here in two days," was his hopeful comment, but a whole week of the honeymoon elapsed before the happy pair arrived. When they did come no one was so glad to see them as bother Peter, who had hopes of being the husband himself.

Mr. and Mrs. Kiel went directly to their little farm, where Pius has plenty of belated spring work demanding attention, while the house, which for so long has been only a bachelors' hall, presents an interesting problem for the young wife.

Married by the Rev. Siekman.

(From Wednesday's Daily.)

George Nook and Miss Lillie Richter, both of Smithton, to whom a marriage license was granted here Tuesday, were united in wedlock at the home of the bride's sister Mrs. Thos. Bluhm, at Smithton, at 6 o'clock last evening.

The Rev. Siekman, of Smithton, performed the ceremony.

The bridal couple is in Sedalia today visiting friends.

Foley's Kidney Remedy corrects urinary troubles, stimulates the kidneys, and restores strength and vigor. It cures uric acid troubles by strengthening the kidneys so they will strain out the uric acid that settles in the muscles and joints, causing rheumatism.

Beginning Wednesday, the county prisoners are to be put to work on the public highways and made to earn their bread instead of lying idle in jail, as in the past.

Mr. F. G. Fritts, Oneonta, N. Y., writes: "My little girl was greatly benefitted by taking Foley's Orino Laxative, and I think it is the best remedy for constipation and liver trouble." Foley's Orino Laxative is best for women and children, as it is mild, pleasant and effective and is a splendid spring medicine, as it cleanses the system and clears the complexion.—Arlington Pharmacy.

Hadley Asks 2½ Cent Fare.

Governor Hadley in a letter Sunday night to C. R. Gray, president of the St. Louis & San Francisco railroad, gave four reasons why the roads should not put into effect their 3-cent passenger rate on April 10, but should give the people of Missouri a 2½-cent rate, with 10 per cent off on round-trip tickets.

He says under the proposition laid down by the railroads four-fifths of the passenger traffic of the state will be at approximately 2¼ cents a mile, while the remaining one-fifth, embracing, in his opinion, the majority of the passenger traffic, would be required to pay 3 cents, a situation which, he says, will lead to controversy.

People past middle life usually have some kidney or bladder disorder that saps the vitality, which is naturally lower in age. Foley's Kidney Remedy corrects urinary troubles, stimulates the kidneys, and restores strength and vigor. It cures uric acid troubles by strengthening the kidneys so they will strain out the uric acid that settles in the muscles and joints causing rheumatism.—Arlington Pharmacy.

Engineer Sees Home Burn.

A special to the Dispatch from Boone, Ia., says:

"As Engineer W. A. Reed, one of the oldest Northwestern railroad engineers, was bringing in the Overland Limited today, he passed within a quarter of a mile of his beautiful home, 'The Maples,' which was burning.

"He could not leave the train, but after reporting hastened back to find the house, barn and shed and a quantity of stock destroyed. The loss is $5,000, partially insured.

"Engineer Reed had just paid for the place and the temptation to stop the train for help was strong."

Instead, Dr. Charles McNeil, of the M., K. & T. hospital staff, spoke on a rare skin disease.

The membes of the society are looking forward with interest to the visit of Dr. McCormick in Sedalia, as he is reputed to be a very able and interesting orator.

JUDGE LEAMING'S DAUGHTER

Was Hostess to Twentieth Century Club in Oklahoma.

The following clipping from the Holdenville, Ok., Enterprise refers to Mrs. Frank L. Warren, a daughter of Judge and Mrs. R. G. Leaming, of this city:

The Twentieth Century club last Friday evening scored another success at their "Evening for Gentlemen" at the home of Senator and Mrs. Warren. The evening's entertainment had been looked forward to by the club members for some time, as it promised to be one of the crowning features of the club year, and they were in no wise disappointed.

The names of the committee alone assured success, and Mesdames Warren, Bilby, Moore and Fawcett more fully than ever demonstrated their ability at making everybody thoroughly enjoy themselves.

About forty club members and guests were present, and at 8:30 score cards for the game of forty-two were passed. The score cards were gems of art, planned and prepared by Mrs. Warren. They were "the sunbonnet babies" and "the little Dutch boys," sketched in water colors on oval cards and tied with the club colors, green and white.

After two and a half hours with the popular game of forty-two dainty refreshments of sherbet and angel food were served, followed by some very high class music by Mrs. Lawson.

Mrs. Smith, a sister of Mr. Bilby, was an out-of-town guest.

The time had passed so quickly, it was with reluctance that the happy company bade their hostess and the faithful committee good night.

Sedalia Boy Joins the Navy.

(From Tuesday's Daily.)

Louie Mason, errand boy for the Sedalia Printing company, and son of Mrs. W. R. Finnell, returned Monday night from Kansas City, where, yesterday, he passed the examination for entrance into the United States navy.

He will leave for Kansas City next Tuesday, and two days later will go to San Francisco, Cal., to enter the naval school.

Big Railway Work to Go On.

The Missouri Pacific Railroad company has finished plans for rebuilding its main line between Kansas City and Pueblo, says the Kansas City Star of Monday. Ballast has been ordered for 750 miles of track, which will cover the distance between Kansas City and Pueblo, and some of the branch lines in the state. The track grades are to be widened and the roadway tiled and drained. It is estimated that the work will cost three and one-half million dollars.

A contract was awarded today in Chicago for the double tracking of forty-six miles of the Chicago & Alton tracks in the vicinity of Bloomington, Ill. Estimates are being prepared for the building of the half million dollar Alton freight terminal in the East bottoms at Kansas City.

The Atchison, Topeka & Santa Fe has resumed the work of double tracking its line between Chicago and Kansas City. Much of the line is already tracked, but the work was stopped following the financial stress. A contract has been awarded for the building of seventy miles of double track on this road, and it is expected that the contracts for the entire double track will be awarded this spring.

GOOD JOB FOR RUSH LAKE

Said He Is Slated for the State Coal Oil Inspectorship.

Jefferson City, Mo., April 6.—According to the general belief here Rush C. Lake, private secretary to Governor Hadley, and secretary of the republican committee, is to be the state coal oil inspector if the legislature passes the bill prepared by Hadley abolishing all the present inspectors and the creation of the office of state inspector.

The bill is one of the measures fathered by the governor that has a good show of passage. While it abolishes many minor positions, it likewise takes away from the governor much political power which he has by reason of the great number of persons he would appoint to fill these positions.

In the event that the bill does not pass Lake is to be coal oil inspector for Kansas City. It is claimed that this fact was determined when Lake consented to take the present position of private secretary to the governor.

TO BE NO MORE BARKEEPERS

An Automatic Machine to Sell Drinks in Future.

Baltimore, Md., April 6.—There is to be no more "rough house" business in saloons, and there will be no further need for the services of the professional bouncer, through the efforts and inventive genius of Jacob Zill, the proprietor of a quench-thirsting emporium in this city.

He has invented a machine that sells drinks and collects pay for them before it delivers the goods. To get results the thirsty one has but to deposit a coin in the slot of Zill's machine.

It doesn't make a particle of difference what the coin is, for the results are always commensurate with the face value of the coin.

DIED ON FORSAKEN ISLE

RICH GIRL CAST LOT WITH HUSBAND WHO SOUGHT CURE FOR LEPERS.

HERE'S A WOMAN WHO WAS TRUE MARTYR

Heiress to Millions and Leader of the Best Society Journeyed 6,000 Miles to Assist Her Husband, a Pathologist.

Winchester, Mass., April 6.—A three-word cable received here from the barren isle of Molokai, Hawaii, announces the death of Mrs. Walter R. Brinkerhoff, formerly Miss Nellie White, of this town, who three years ago gave up the pleasures of wealth and assured social standing and took her place beside her husband to assist him in the care of the lepers, among whom he has cast his lot.

She died a martyr of wifely devotion and to the slowly dying creatures on the island, who fairly worshipped her. The cablegram contained only the three terse words, "Nellie is dead," and no other word has been received to tell the manner of her death.

Mrs. Brinkerhoff was the daughter of the late multi-millionaire, Nelson D. White, and a niece of ex-Governor John D. Long. Her marriage in August, 1907, was one of the most romantic in the annals of New England.

The bride, heiress to millions, and leader of the best society, journeyed 6,000 miles to wed the young pathologist who had devoted his life to the lepers of the Pacific, in a heroic effort to discover a cure for the loathsome affliction.

For the last three years she has lived contented upon the forsaken island, assisting her husband in his laboratories and continually smeared with the malodorous ointment used to prevent contagion.

HEARST'S EVIDENCE STOLEN

Another Chapter in Haskell Hearst Libel Case.

Toledo, April 6.—The Toledo police today took a hand in the Governor Haskell-W. R. Hearst libel case, when they began a search for papers valuable to Hearst which were stolen Sunday in the depot at Hastings, Mich.

For several days Scott MacReynolds, of Chicago, and E. A. Freshman, of New York, representing Hearst, and O. T. Smith, of Guthrie, Okla., representing Governor Haskell, have been in Toledo taking depositions.

Sunday MacReynolds and Freshman went to Hastings and while in the station at the place their grips, which contained all papers in the suit, were stolen. The matter was reported to the Toledo police. MacReynolds and Freshman have gone to Chicago.

NEW $15,000.00 CHURCH

THE REV. R. C. MILLER'S EAST SEDALIA FLOCK TO ERECT IT THIS SUMMER.

BIDS TO BE OPENED ON MONDAY APRIL 19

Plans and Specifications Were Prepared by Thomas W. Bast—Expect to Have It Finished By September 1st.

(From Tuesday's Daily.)

Plans and specifications for a new building for the East Sedalia Baptist church, of which the Rev. R. C. Miller is pastor, to cost in the neighborhood of $15,000, are now in the hands of different contractors to bid on the work for the erection of the building.

Bids will be opened Monday, April 19, and the lowest and best will be accepted, after which the contract will be let and work will be begun immediately.

The new church will be constructed of brick, and will be erected on the lot now occupied by the church at Fifth street and Summit avenue.

It will be up to date in every detail and will afford a larger seating capacity than the present edifice—in fact, will afford as much space as the Fifth Street M. E. church, South.

T. W. Bast, the architect, prepared the plans and specifications for the structure, under which will be built a full basement for Sunday school purposes, reading rooms, etc.

Quite a large sum of money has been subscribed to help pay for the church, while a snug sum is now on hand. The intention is to have the building finished by September 1.

Some three years ago the members of the church began considering the plan of erecting a new building, and step by step they have pushed the work until today their hopes are beginning to be realized.

Fast Trains Must Make Stops.

Judge Trieber at Little Rock, Ark., Monday denied the Cotton Belt an injunction against the Arkansas railroad commission to prevent its order stopping the fast trains of the Cotton Belt at Thornton and Kingsland from going into effect.

The answer of the defendants was filed, also many affidavits of railroad officials and shippers for each side. The railroad is claiming the towns have ample railroad service at the present time and connections can not be made with the interstate trains if the order is permitted to stand.

Judge Trieber refused to sustain the temporary order and informed the attorneys for the company that they would either have to put on another train or make the stops indicated by the commission.

New President for the Rock Island.

New York, April 6.—R. A. Jackson, of Chicago, was today elected president of the Rock Island Railroad company to succeed Robert Mather.

MAN "STARTED SOMETHING"

But Deputies Card and Menefee Were Dumb as Oysters.

(From Tuesday's Daily.)

"If you want to know who is running this place, just start something," were the words printed in heavy type on a large piece of cardboard which hung conspicuously in the office occupied by Deputy Sheriffs Card and Menefee.

An unsophisticated indivdual of the male persuasion entered the office today without uttering a word. Quietly and peaceably he overturned chairs, rearranged the desk, slammed the doors, opened the windows and did various other things not exactly required of a stranger, but left the place unharmed and unmolested.

Both deputies stood near by gazing at his maneuvers but said nothing. After his departure both officials removed the card, and each made a solemn vow not to replace it.

The stranger evidently knew who was running the place.

"Jack" Sweeney Makes a Change.

J. L. Sweeney, better known as Jack Sweeney, who has been working the third trick for the Katy at the yard office in this city, has resigned the position and accepted one as operator with the Missouri Pacific in the company's office in this city says the Nevada Post of Monday.

Mr. Sweeney has been with the Katy road as operator and dispatcher at times for a period of ten years. He has been in Nevada about two years.

PILOT GROVE ITEMS.

Pilot Grove, Mo., April 7.

The city election pasesed off quietly. The proposition to light the city was defeated. The following officers were elected: Mayor, W. B. Simmons; city marshal, Jake Huffman; city collector, Robert Roe; school directors, Sam Cruse, E. H. Harris, Jr., and A. L. Ploger.

Kemp, for school commissioner, carried the town by two to one, and was given good majorities by all the surrounding districts.

Miss Mary Ellen Reid is in the asylum at Nevada. She is reported in a critical condition.

The annual declamatory High school contest will take place at the High school auditorium next Friday night.

Mrs. Mary Brooks will lecture at the city hall next Tuesday night. No admission will be charged. During the Civil war Mrs. Brooks was a young teacher. Miss Mary Carroll. On a little farm near Pilot Grove she lived with her widowed mother and other members of her family. One night the militia came to the Carroll home, arrested Dennis Carroll, a mere boy, and another young man, Brownlee, and placed them in the Boonville jail. They were liberated with a wooden key, made by Miss Mary Carroll. Later Dennis was killed near Longwood buried after awhile near the home of his mother, forty years later reinterred in a cemetery at Glasgow. Mrs. Brooks is an interesting story teller, and she will be greeted by a crowded house here to hear the story of her life.

The stork visited the home of Bert Harriman April 7 and left a wee baby boy.

Ex-Commissioner J. B. Immele was re-employed to teach the Simmons school at the school meeting. Mr. Immele gets a raise in his salary and a seventh months' term. He could get better wages elsewhere, but Simmons is his home district, and he is at home every night. Besides being a splendid teacher, Mr. Immele is a good farmer and fruit grower and an influential citizen.

Rev. A. M. Cockrell, of Warrensbug, and Harry Holdeman, of Kansas City, were here a few days this week.

I read with sorrow of the death of my old friend, "Dick" Ellis. Long years ago we met in a strange land among strangers and planted a friendship which has never grown old. He was a good man, and though of late years I have seldom met my old friend, I shall recall with sadness the places where we used to meet, and grieve to know that we can never meet again in this life, but somewhere—not here—but in a beautiful hereafter we shall meet again, and there the friendships of life will become the loves of eternity. Old friend, adieu! Rest in peace.

WIDOW LIVED IN SEDALIA

Dr. Gunn Married Her, and Yesterday He Suicided.

After writing a note to his wife, who was formerly Mrs. Eliza Given, widow of George Given, of Sedalia, Dr. W. H. Gunn, a physician who had more or less of an interesting career at Oklahoma City, took morphine Monday and died.

That he intended to kill himself was fully evident from the contents of the note he left.

He said he was tired of life because the reverses he had been subjected to for the past few years were too heavy to bear. He directed his present wife to dispose of his possessions and see that he was buried.

Mrs. Given formerly resided at 605 East Twelfth street, and was married to Dr. Gunn less than six months ago, the outcome of an advertisement in a matrimonial paper.

A NOTED LAWYER KILLED

POPE HILL THIRD VICTIM IN CELEBRATED DODGE CASE DEATH TRAIL.

DEAD WITH PISTOL IN HAND AT M'RAE GA

Threatening Letter Found In His Pocket—Indications of a Desperate Struggle Before Fatal Shot Was Fired.

McRae, Ga., April 6.—That Pope Hill, a prominent attorney of Macon, is the third victim of an assassin in the now celebrated Dodge case is the belief of the authorities of this county. The coroner's jury, after a careful examination, declared last afternoon that Hill was murdered by "parties unknown."

Hill was found dead in the office of a local attorney at 7 a. m. yesterday, a bullet in his brain and a revolver with one chamber discharged grasped in his right hand. The condition of the office indicated a desperate struggle. The stove had been turned over, the coal scuttle was crushed and the furniture was broken. On the floor lay an unfinished court motion in the Dodge case, drafted by the dead lawyer, which he came here to file yesterday.

Hill arrived here at noon Sunday and went into a friend's law office to work on the case. A little while later he went to the home of the proprietor of a hardware store and said he had received some threatening letters and wanted a revolver. He was so insistent that the hardware man opened the store and sold Hill the revolver which was found clasped in his hand yesterday. Hill returned to the office and was not again seen alive.

When the body was found he had been dead several hours. The bullet had pierced his right eye and entered the brain. Blood stains on the walls indicate that he must have been shot while standing up. The first idea of suicide seemed contradicted by the fact that there were no powder burns on his face, and there was every indication of a desperate struggle in the office, which apparently began while Hill was in the middle of the work of preparing his motion for the court yesterday.

When his body was searched a note addressed to him at Macon was found. It was written in a childish hand, and said:

"Pope Hill—The next time you interfere with our settlement you will be broke."

Instead of a signature there was a rudely drawn skull and crossbones. The authorities believe that Hill received other threats after he arrived here Sunday, which impelled him to buy the revolver.

The trail of deaths and injuries in the Dodge case began in 1891. In that year Capt. John C. Forsythe, who represented the N. W. Dodge estate, was assassinated. After a six weeks' trial, five men were sent to prison for life for the crime.

Soon after this Lucius Williams, one of the claimants' attorneys, was killed, and for weeks the entire country was in a state of great excitement. Since then there have been numerous encounters growing out of the case, in which the participants received several gunshot or stab wounds.

The Dodge lands cover some 400,000 acres in Pulaski, Dodge, Telfar and Lawrence counties. The titles rested on ancient land grants, and since 1882 there has been continuous litigation over their ownership. Many squatters settled on different parts, and there was trouble every time an eviction was attempted. The Dodge heirs were kept busy protecting their title and dispossessing squatters.

A COMMON ERROR

The Same Mistake Is Made By Many Sedalia People.

It's a common error
To plaster the aching back,
To rub with liniments rheumatic joints,
When the trouble comes from the kidneys.
Doan's Kidney Pills cure all kidney ills,
And are endorsed by Sedalia citizens.

J. M. Logan, 616 West Fifth Street, Sedalia, Mo., says: "I suffered from lumbago for a long time. I had such severe pains in my back that I could hardly get about. I used a number of remedies, also plasters, but nothing benefited me until I began using Doan's Kidney Pills, procured at Baird's drug store. Two boxes of this remedy banished my trouble and I gladly recommend it." (Statement given March, 1906.)

Mrs. Logan, on Oct. 1908, confirms the above statement by saying: "My husband is still in good health and has had no return of his former trouble."

For sale by all dealers. Price 50c. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no other.

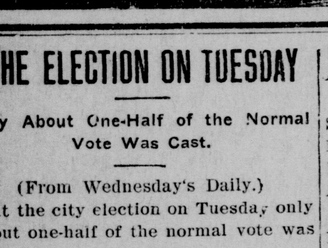
What Kind of a Bed Do You Sleep On?



We should ask, what kind of a Mattress? for that's where most of the comfort comes from. If yours don't just suit you, try one of these. They are made of felt, built up in layers, and can not lump up or get hard; the tick is a good old fashioned stripe that won't fade or tear, and will wear for years. They are plump and soft, look good and feel good when you sleep on them, and cost so little more than a poor mattress you can't afford to do without one.

A COUNTY SUED FOR $60,000

It Grows Out of the Digging of Ditch In Bates County.

A. V. Wills & Sons, sub-contractors in digging the big Bates county drainage ditch, have commenced suit against Bates county in the federal court for $58,000 for work done, says the Clinton Democrat. They assert that they encountered rock in the work where the drawings showed soil that could be dredged out.

The county claims that it has but one contract, with Foohey & Sons, the main contractors, and that under this contract the work must be completed before payment is made.

They stand pat on this proposition and stand ready to pay when the rock is taken out and not before.

Among those in attendance were the Rev. Harold Cooper, the new pastor of the First Congregational church, and the Rev. Grant Robbins, the new pastor of the First M. E. church.

THERE WAS ONE CONVERSION

The evangelistic services at the East Broadway Christian church began with surprising interest. There was one conversion at the Sunday morning service and many others manifested vital interest in the meetings.

Rev. E. H. Williamson, the pastor, is preaching the Gospel with evident earnestness, and the membership is taking on new life.

The membership in the Bible school has nearly doubled in the past two months. The offerings have also materially increased. The clerk of the church reports that a number of members are contributing to the current expenses of the church who have never been giving.

The subject of this evening's discourse will be, "What Shall I Wear to My Wedding?" Tuesday evening, "The Change of Heart Essential to Salvation." The song service begins at 7:30 p. m.

The afternoon prayer meetings are at 3 o'clock.

SPRING FEVER

GOVERNMENT FILES BRIEF

ACTION TO DISSOLVE STANDARD OIL COMPANY BEGINS IN ST. LOUIS.

SETS FORTH STATEMENT OF THE FACTS

Says the Company Has Resorted to All Manner of Devices to Throttle Competition—Its Enormous Earnings.

St. Louis, April 5.—The government filed in the circuit court of the United States here today its brief in the case of the United States against the Standard Oil Co. of New Jersey, by which it is sought to dissolve that corporation. The declaration is made that the testimony shows that the defendant has from the first pursued a system of unfair competition against its competitors, whereby the independent companies have either been driven out of business or their business has been so restricted that the Standard Oil Co. has practically controlled prices and monopolized commerce in the products of petroleum in the United States.

This system, the brief contends, has taken the form of price-cutting in certain localities, where there was competition, while keeping up high prices in localities where there was no competition; of obtaining secret information as to competitive business, largely through bribing railroad employes, and using such information to procure the countermanding of orders received by independent concerns.

One evidence of the monopoly, it is charged, is the Standard's enormous earnings, which, the brief contends, on an original investment of $69,000,000 has earned up to the end of 1906 $838,783,783.

HOME FROM THE GAS FIELDS

Mrs. J. M. Planck Returned on Sunday Afternoon.

Mrs. J. M. Planck, of 500 West Fourth street, returned Sunday afternoon from a visit at Centralia and Mount Vernon, Ill., in which latter city she visited the family of the Rev. Frank O. Fannon, formerly pastor of the First Christian church of Sedalia, but now laboring in the Masters' vineyard at Mount Vernon.

Mrs. Planck owns a farm near Centralia, which is an important coal town on the main line of the Illinois Central railway, and had decided to sell it, but there is so much excitement there over the discovery of natural gas that she reconsidered and will retain possession of the land, this being the advice of Rev. Fannon and other friends.

"I never before met so frenzed a people," said Mrs. Planck to the Democrat-Sentinel, "but I guess they have cause for being something other than normal, for they have a single gas well near Centralia that it is claimed will supply the town with light and fuel for years.

"There are oil and gas men there from all sections of the country and land is being bought and leased in a manner never before dreamed of by the oldest inhabitant. My tenant told me that my farm had already increased $1,000 in value, so under the circumstances I decided not to sell for the time being."

SLAUGHTER OF SALOONS

THE ANTI-SALOON LEAGUE IS IN THE SADDLE OVER IN INDIANA.

VOTE IN 21 COUNTIES PRESENT MONTH

"[illegible] Expect to Close 800 "Thirst Parlors" Before May 1—During the Month of March There Were 276 Put Out.

Indianapolis, Ind., April 5.—Eight hundred saloons are marked for slaughter in April, according to the statement of Superintendent Shumaker, of the Anti-Saloon league.

Two hundred and seventy-six more were wiped out in March. Shumaker says that nearly 700 have been abolished since the first local option election was held in December.

Petitions are being filed for elections in twenty-one counties in April.

Knox, Laporte, Jefferson and Delaware are the largest counties in which elections will be held.

The indications are that Delaware county, including the city of Muncie, will be voted "dry," as the sentiment against the saloon keepers at Muncie is very strong. The rest of the county is already "dry."

Received a Death Message.

(From Monday's Daily.)

J. W. Byng, who has resigned as manager of the R. G. Dun Mercantile agency to accept the vice presidency of the Germo Manufacturing Co., effective April 15, as chronicled in the Democrat-Sentinel Sunday, departed at noon today for Paducah, Ky., in response to a telegram announcing the death of his brother-in-law, James H. Wilcox, city engineer of Paducah, who died at 6:40 o'clock this morning.

Mr. Wilcox was 45 years old and leaves a widow and an 11-year-old son.

QUIGLEY BACK AT WORK

ASKS EXTENSION OF TIME FOR COMPLETION OF NEW ELECTRIC ROAD.

WANTS ASSURANCE BONUS WILL BE PAID

Nine More Months to Complete Power Plant and Three Months to Finish Line—Name of Road Changed.

Springfield, Mo., April 5.—J. B. Quigley, chief engineer and general manager of the Mansfield, Ava and Southern Electric Railway company, has returned to Ava and has been asked for an extension of nine months for the completion of the power plant and three months for the completion of the line.

Mr. Quigley has been absent from the scene of operations for five months, during which time the interests of McIntosh and Parker, who were the heaviest stockholders in the road, were transferred to other capitalists. Mr. Quigley announces he is ready to complete the road.

Mr. Quigley now has the entire management of the Mansfield-Ava road. Considerable time was consumed in dissolving the old Kansas City, Ozarks and Southern road and organizing the new company, in consequence of which actual construction work has been suspended and the extension of time is absolutely necessary for the success of the enterprise.

The citizens of Douglas county subscribed $35,000 for the terminals at Ava, the money to be paid when the line was completed and in operation. A time limit was specified in the contract. The contract for the bonus expires within a short time.

The Douglas County Advocate is urging the citizens to favorably consider Mr. Quigley's application for more time, taking the stand that the people want a road and should be willing to hand over the bonus at any time the road is completed and in operation.

It is believed that the line can be finished within six months if work is resumed at once. This Mr. Quigley intends to do if he is assured the bonus will be paid. Considerable money has already been expended in construction work. Most of the roadbed is in shape for the ties and steel. Rails have been laid for quite a distance out of Mansfield.

Fr. Neiberg Leaves Brooklyn.

(From Monday's Daily.)

The Rev. Fr. Stanislas Neiberg, pastor of Sacred Heart church, who for the past two weeks has been conducting a mission at St Boniface church in Brooklyn, N. Y., in company with the Rev. Fr. Benedict, of St. Joseph, Mo., left there at 4 o'clock Sunday afternoon on his way home.

Today Fr. Neiberg arrived at Sidney, O., where he will make a short visit with a sister, after which he goes to Celina, Ohio, for a brief sojourn, and will then start home, arriving here not later than Good Friday, or possibly a day earlier.

Train Crew Charged With Murder.

BLOODHOUNDS GOT HIM

NAKED YOUTH MADE A BRUTAL ATTEMPT TO ASSAULT INDIANA GIRL.

LEAPED INTO CARRIAGE AND ESCAPED

Identified by Several Persons as 17-Year-Old Boy Who Had Terrorized Women—Confession Finally Obtained.

Brookville, Ind., April 4.—Driving alone toward her home near Laurel Saturday night, a young woman found the highway obstructed by a pile of brush, through which was run barbed wire.

She attempted to move the barrier, whereupon a youth, stark naked, sprang from behind a tree and attempted to seize her.

However, she was able to leap into her carriage, and, her horse frightened, leaped the barrier, the vehicle following safely.

The youth hurled a stone, knocking the young woman to the floor of the carriage, where she was found when her horse pulled up at home. Reviving, she told of the adventure.

Bloodhounds followed a trail of John Marfington, aged 17, to his home near Laurel, and he was arrested on a charge of felonious assault.

Marfington was identified by several persons as the fellow who, stark naked, had been terrorizing women in the locality for a month. He then confessed.

TWO NEW PASTORS HEARD

Rev. Robbins at First M. E. and Rev. Carlos at Epworth.

(From Monday's Daily.)

The Rev. Grant A. Robbins preached his introductory sermon as pastor of the First M. E. church Sunday morning. A large congregation greeted him, and his discourse met all expectations, despite that much was expected. The church has had an able pastor for the past seven years in the person of Dr. S. S. Martin, but Rev. Robbins is certain to prove a most worthy successor.

At the Epworth M. E. church the Rev. C. R. Carlos preached two splendid sermons Sunday, and departed in company with his wife this morning for Kansas City.

The information in Sunday's Democrat-Sentinel, that Dr. Carlos had asked and would be transferred to the Indiana conference, caused some surprise here, and the members of Epworth church are now awaiting with interest the announcement of who from the Indiana conference is to be their pastor.

TEXAN PROVED AN ALIBI

WAS THOUGHT TO HAVE KILLED A GIRL IN INDIANA 32 YEARS AGO.

PRELIMINARY HEARING HELD AT TULIA

Accused Was Only 14 Years of Age at the Time the Crime Was Committed, and, Moreover, Was Never in That State.

Amarillo, Texas, April 5.—Henry Bunham, recently arrested on complaint of E. Chambers, of Swisher county, Texas, charged with the murder of a girl on the outskirts of Terre Haute, Ind., alleged to have been committed thirty two years ago, was discharged from custody at the conclusion of a prelimisary trial at Tulia Saturday.

Chambers, who came to Texas two years ago from Indiana, set up the allegation that he had reason to believe that Burnham was the man wanted. He recounted the fact that the girl's body had been horribly mutilated and left in a sack in an attic.

Burnham is one of the wealthiest men in the county and the accusation created a profound sensation among his neighbors.

On the stand it was shown that Burnham has lived in Swisher county, Texas, for twenty-six years; that he is a native of Arkansas and was only 14 years of age when the tragedy was committed in Indiana, and, further, that he was never in the state last named in his life.

AWFUL RASH ALL OVER BOY'S BODY

Weeping Eczema Kept Spreading on Little Sufferer—A Score of Treatments Prove Dismal Failures —Grateful Father Tells of

CURE ACHIEVED BY CUTICURA REMEDIES

"It gives me great pleasure to express my deep gratitude in appreciation of the incalculable benefit that the Cuticura Soap, Ointment and Resolvent did my little boy. He had an awful rash all over his body and the doctor said it was eczema. It was terrible and used to water awfully. Any place the water went it would form another sore and it would become crusted. A score or more physicians failed utterly and dismally in their efforts to remove the trouble. Then I was told to use the Cuticura Remedies. I got a cake of Cuticura Soap, a box of Cuticura Ointment and a bottle of Cuticura Resolvent, and before we had used half the Resolvent I could see a change in him. In about two months he was entirely well. When people see him now they ask, 'What did you get to cure your baby?' and all we can say is, 'It was the Cuticura Remedies.' So in us Cuticura will always have firm and warm friends. George F. Lambert, 139 West Centre St., Mahanoy City, Pa., September 26 and November 4, 1907."

THREE RELATIVES GOT $4,000

Of the $10,000 Estate Left by the Late John Murray.

(From Sunday's Daily.)

According to the terms of agreement reached at Kansas City the past week, Daniel Cronan and Mrs. Charles M. Sheets, of Sedalia, and Mrs. Josie Meyer, of Smithton, will receive $4,000 of the estate of $10,000 left by John Murray, deceased husband of their deceased sister.

Murray died at St. Joseph's hospital at Kansas City on May 2, 1908. He left a will requesting that his estate be divided among charitable institutions.

Murray's wife's maiden name was Mary Cronin. She died in 1870. They had no children, and under the statutes the husband's estate goes to the wife's relatives. On this ground the Pettis county relatives instituted suit.

The case has been hanging fire for some time, and according to the settlement the remaining $6,000 of the estate is to be divided among charitable institutions by Charles H. Moore, second vice president of the National Bank of Commerce.

JUDGE HOFFMAN'S ORDER

WANTS HIS FEE OF $2 EACH ON ALL CIVIL SUITS FILED IN HIS COURT.

AND HE WANTS IT, TOO, AT TIME OF FILING

Circuit Clerk Daugherty Desired to Settle Quarterly With His Honor, but This Was Not Satisfactory.

(From Sunday's Daily.)

"It is ordered by the court that hereafter before any civil suit is filed in this court there shall be paid to the clerk the two dollar filing fee provided in Section 9703 of the Revised Statutes of 1899, and the clerk of this court is hereby directed to credit the same to the judicial salary account and pay the same to the judge of this court as provided by Section 9703.

"In addition to the above there shall be paid to the clerk an additional filing fee of three dollars at the institution of each civil action to pay for fees for issuing and serving original writs as the cause may be."

The foregoing is a copy of an order issued by Circuit Judge Louis Hoffman Saturday, following a declaration made by C. W. Daugherty, circuit clerk, that hereafter no costs will be paid to the circuit judge or any one else entitled to costs until a final settlement is made of the case, and until after all costs accruing from the suit are paid.

The order was issued by Judge Hoffman following a motion to issue it made by G. W. Barnett, attorney, seconded by W. W. Blain.

In addition to Messrs. Barnett and Blain, Judge George F. Longan, C. C. Kelly, W. D. Steele, Lee Montgomery, C. I. Wilson, H. D. Dow and W. D. O'Bannon were present when the action was taken, pursuant to an invitation from Judge Hoffman to act as an advisory board on the issuing of the order.

The trouble originated several days ago, but reached a crisis late Friday afternoon, when Circuit Clerk Daugherty served verbal notice on Judge Hoffman that the court's fees would not be paid hereafter until final settlement of all costs had been made.

Judge Hoffman, who, since becoming judge of the Pettis county circuit court has been receiving his costs immediately or shortly after the filing of each suit, objected to such a procedure, and so notified the circuit clerk.

However, the judge's objection did not change Clerk Daugherty's plans, and Judge Hoffman then summoned members of the bar to advise with him on the subject.

Mr. Daugherty's action in refusing to pay the judge's costs until a final settlement is made is perfectly legal, according to some of the older members of the bar.

According to the clerk's views, it is unfair for the circuit judge to receive his costs, which amount to $2 for each civil action brought in circuit court, immediately upon the filing of the suit, while the circiut clerk, sheriff and other court officers are compelled to often wait months and months for their costs, which are much larger than the judge's.

The circuit judge of this county is entitled to a fee of $2 for each civil action brought in that court, in addition to his fixed salary of $2,000 per annum. The law says that at the expiration of each quarter a settlement shall be made with the circuit judge, and he shall be paid the fees he has acquired during that term.

In the past, Circuit Clerk Daugherty has been making a monthly settlement with Judge Hoffman, allowing him $2 for each suit instituted, while he himself, the sheriff, witnesses and others have been kept waiting until the civil action is finally settled.

Frequently suits hang fire for several years, and during all that time no costs are actually paid, being merely kept account of, while the circuit judge already has his costs and others are compelled to wait and wait, and on many occasions, so Mr. Daugherty said, the costs, with the exception of those paid the judge at the beginnig of the suit, are entirely lost.

Attorney Lee Montgomery expressed the opinion that whenever a lawyer files a suit he can stipulate that $2 of the $5 filing fee shall be paid to the circuit judge, but Judge George F. Longan expressed the opinion that it was unwise and unfair for the judge to receive his fee and others be compelled to wait.

Upon the adoption of the motion to issue the order each of the nine lawyers present voted "aye."

Home-Coming Date Is Changed.

The Home-Coming celebration being arranged in honor of the fiftieth anniversary of the founding of Sedalia will be held on October 2, 3, 4 and 5, the week of the state fair, instead of during the month of June, as originally planned.

This was decided by the executive committee in charge at a meeting Friday night, as it was shown that it would be impossible to obtain reduced railway rates at this time, owing to the strained relations between the railroads and the state administration.

The Katy Sued for $274.44.

George E. Spears instituted suit in circuit court Saturday against the M., K. & T. railway for $274.44 for the killing of three sheep and the injuring of many others, which were being shipped from Beaman to the National Stock Yards at East St. Louis, Ill., on December 15, 1908. Judge George F. Longan represents plaintiff.

PAIN

Pain in the head—pain anywhere, has its cause. Pain is congestion, pain is blood pressure—nothing else usually. At least, so says Dr. Shoop, and to prove it he has created a little pink tablet. That tablet—called Dr. Shoop's Headache Tablet—coaxes blood pressure away from pain centers. Its effect is charming, pleasingly delightful. Gently, though safely, it surely equalizes the blood circulation.

If you have a headache, it's blood pressure.

If it's painful periods with women, same cause.

If you are sleepless, restless, nervous, it's blood congestion—blood pressure. That surely is a certainty, for Dr. Shoop's Headache Tablets stop it in 20 minutes, and the tablets simply distribute the unnatural blood pressure.

Bruise your finger, and doesn't it get red, and swell, and pain you? Of course it does. It's congestion, blood pressure. You'll find it where pain is—always. It's simply Common Sense.

(From Sunday's Daily.)

John W. Byng, manager of the R. G. Dun Mercantile agency in Sedalia, has tendered his resignation, which becomes effective April 15, and on May 1 he will become vice president, general manager and general auditor of the Germo Manufacturing Co.'s various branches throughout the United States.

No successor to Mr. Byng has yet been appointed and in all probability the local agency will be managed by the district superintendent.

Mr. Byng has been connected with the Dun Mercantile agency for the past eleven years. Mr. Byng has purchased considerable stock in the Gemo company and intends to establish branch offices in Charleston, S. C., Dallas, Texas, and in other large cities of the country.

His new position also makes him general auditor of the branches here, at Los Angeles, Philadelphia and of the recently established branch in Chicago.

Mr. Byng's legion of friends in Sedalia and elsewhere will learn of his advancement with pleasure, feeling confident that he will soon attain in his new undertaking as marked success as he won with the mercantile people.

TRAPPED GETTING $1,000

OKLAHOMA MAN LEAVES MONEY AS DIRECTED BY BLACK HAND LETTERS.

OFFICERS LAY IN WAIT AND CAPTURE MAN

Merchant's Store in Krebs, Ok., Was Blown Up by Dynamite Twe Weeks Ago Last Night—Three Men in Custody.

McAlester, Okla., April 5.— The store of Joe Nellis, of Krebs, a wealthy Italian merchant, was blown to pieces with dynamite last Monday night, after he had received two letters, signed "Black Hand," demanding $1,000.

Saturday he received another letter, still demanding the thousand dollars, and at noon today a man was caught taking the money from the place they had ordered it placed. Two others were arrested later. Following the receipt of the first two letters, Nellis, guarded by officers, placed the money, but the men were frightened away without getting it. Then followed the destruction of his store. The letter received Saturday read:

"We got the store and if you fail this time we will get your head. Fail to leave the thousand dollars if you think more of it than you do your life."

The former letters were mailed at Krebs. This time the letter was mailed at Alderson, three miles east, and he was instructed to place the money Sunday in an old coke oven near Alderson.

Two deputy sheriffs concealed themselves in a slack bin Saturday night within thirty yards of the oven. At noon Nellis went there and left the money. Four minutes after he left a young Italian was seen going straight to the oven. He went in and got the package and the officers rushed upon him. Two others, apparently following him, were later arrested.

The young man who took the money is San Dibbilla; the others are Dominio Maussires and Basili Guppaues. They are all young, are miners from South Italy and have been here but a short time. They refuse to talk.

DRINK SENT HIM TO PRISON

Veteran of Civil War Has Been Paroled by Governor.

Jefferson City, Mo., April 5.—William J. Brownfield, 70 years old, a veteran of the civil war, and with an unblemished federal record, was released from the penitentiary Saturday on a parole issued by Governor H. S. Hadley on the recommendation of Pardon Attorney Frank Blake. He was convicted in March 1908, of assault to kill and sentenced to five years.

During a soldiers' meeting held in Jefferson county, and while drunk, Brownfield assaulted another old soldier, Paul Patton, with a bayonet and dangerously wounded him. The assault was entirely unprovoked and due solely to Brownfield's intoxication.

Patton presently recovered, and the other day he addressed a long letter to Governor Hadley begging him to release his assailant, saying that he did not want an old soldier with an honorable war record to die in the penitentiary. Brownfield is badly broken in health, and at best cannot live long. He has a good name in Jefferson county, where he has resided for many years, and was never before in any trouble.

After his release he said that whisky had caused his disgrace and he would never take another drink during the remainder of his life.

WIRE TAPPER A VAGRANT

In One Deal He Fleeced Banker Out of $180,000.

Los Angeles, Cal., April 5.—T. C. Dieffenbacher, said by the police to be one of the cleverest wire tappers in America, and a ringleader of the gang that fleeced William F. Walker, the New Britain, Conn., banker, out of $180,000, resulting in the latter's flight and subsequent imprisonment, was in police court Saturday, charged with vagrancy.

Judge Rose gave him an alternative fine of $180 and suspended it, on Dieffenbacher's promise to leave the city. He is fatally ill with tuberculosis.

Dieffenbacher was arrested recently and a wire tapping outfit found in his room. He was afterwards released, but was rearrested on the belief that he was about to try a coup.

The detectives say that Dieffenbacher admitted that he was one of the men that swindled Walker and that he has helped to fleece others in the same way.

MISSOURI CROP REPORT

PRESENT INDICATIONS POINT TO A VERY LARGE ACREAGE OF CORN.

DECREASE OF TWELVE PR. CT. IN WHEAT

Oats 17 Points Below the Average—Rye 2 Points Below the Low Average of 1904—Clover Badly Frozen Out.

Columbia, Mo., April 5.—The first monthly crop report of the season was made public Saturday by the secretary of the state board of agriculture, as follows:

The season has opened up favorably and somewhat earlier than the average and farm work is progressing satisfactorily. Live stock, as a rule, has gone through the winter in good condition, and most of our correspondents report an abundance of feed. A number of correspondents complain of hog cholera, and the loss during the winter on this account has been quite heavy. The Missouri agricultural experiment station is now manufacturing serum for inoculating hogs for cholera, but owing to limited funds the supply is not sufficient to take care of the demand, and will not be until the legislature provides the necessary funds.

Corn—The present indications are for an unusually large acreage of corn this year. The facts encouraging a large acreage are (1) the high price of corn; (2) the scarcity of old corn now in the cribs; (3) in a number of counties, particularly in the southwestern part of the state, broomsedge, a troublesome weed, is spreading over the meadows and pastures, and thousands of acres will be plowed up this spring in order to get rid of the pest. The only known remedy for it is close-grazing or cultivation. A larger per cent of corn land is ploughed this spring than for any of the past five years, the per cent being 32. The soil, except in a few of the northern counties, is in excellent condition for planting. A little corn is reported planted in the extreme southwestern counties.

Wheat—On account of the excessive drought which prevailed over the state during last August and September, the wheat acreage sown was greatly reduced. It is estimated that only 1,650,000 acres were seeded last fall, a decrease of more than 12 per cent below the acreage sown the previous year. The condition of the crop on the first of December last year was 79, which was 10 points below the five-year average. During the winter there was a lack of snow covering, and on account of the sudden changes from warm to exceedingly cold weather, the wheat has been greatly injured and perhaps a considerable portion of the land sown will be ploughed up and planted to other crops. The greatest damage on this account seems to be in the west central portion, where it is injured very badly. The present average condition is 70 per cent, which is 21 points below the condition at the same time last year, and 18 points below the five-year average for the first of April.

Owing to the high price of seed, the indications are that the acreage sown to oats this year will not be as large as usual. Fifty-two per cent of the crop is sown at the present time This is 17 points below the average for the last five years. A few counties in the southwest section report the oats coming up.

Clover—Owing to the sudden freezing and thawing last winter the clover has frozen out of the ground very badly. The condition of clover at the present time is 74 per cent, which is the lowest since the spring of 1906, and is 11 points below the average of the last five years. Indications are that much of the old clover will be ploughed up and planted to corn. Sections the worst affected are the northwest and a few counties in the west central, and also a few counties in the northeast section.

Timothy—This kind of meadow has passed through the winter in much better condition than other crops. Although the sudden freezing and thawing injured it to a great extent, it has an average of 88 per cent, or 3 points below the five-year average.

Rye—Rye in common with other crops, has suffered from the severe winter, the average condition being 82 per cent, or two points below the average of 1904.

Increased Postoffice Receipts.

The postal receipts at the Sedalia postoffice for the year ending March 31, as compiled by Postmaster E. E. Codding, show an increase of 10.7 per cent over the past year.

FIRE IN INSANE ASYLUM

SIX HUNDRED HELPLESS PERSONS ARE THREATENED WITH DEATH.

WOMAN SAW BLAZE AND GAVE THE ALARM

Several Buildings Destroyed Before the Fighters Could Control the Flames—The Loss Is Placed at $75,000.

Woodward, Okla., April 5.— Six hundred helpless insane persons were in danger of death Sunday afternoon when a blaze, starting from a prairie fire, destroyed several buildings of the state insane asylum at Fort Supply, near here.

The fire started in the laundry building shortly after the noon meal, and the inmates had been returned to their quarters. The asylum fire department was ordered out and every effort made to conceal from the patients the fact that the building was burning.

One woman, looking out of a window, however, saw the fire and excitedly gave the alarm.

"We'll be burned to death," she screamed.

The attendants rushed to their charges and tried to pacify them. The fire spread from the laundry to the pharmacy supply building and threatened the asylum itself.

When the blaze was very near them the inmates had yielded to the entreaties of the attendants and kept good order when the danger was most apparent. It took hard work to save the various ward buildings. So effective were the efforts of the fire fighters, though, that these were spared and no loss of life, such as was deemed a certain outcome of the fire.

A high wind made it seem for a moment that the whole institution was doomed. The buildings destroyed were the stable, laundry, pharmacy and employes' quarters. The loss is estimated at $75,000.

PRESS AGENT IS NO MORE

THIS PARTICULAR PERSONAGE IS THING OF THE PAST AT THE WHITE HOUSE.

"T. R.'S" FREE SPEECH POLICY CUT OUT

Hereafter All Interviews Will Mean Something—There Will Be No More Verification of Reports by President.

Washington, April 5.—In the giving out of news at the White House perhaps the most striking departure from the Roosevelt methods has been shown since March 4.

The day of the "fair-haired boy," as the Roosevelt newspaper favorites were locally (and perhaps enviously) known has pased. There are no press agents in the administration, or if there are they do not appear as such at the White House.

Mr. Taft had not been president very long before he announced that he would cease seeing newspaper representatives with the same freedom they had been accustomed to at the White House. The first version of this was that when he had anything to communicate to the newspapers he would send for representatives and talk to them, but that at other times he did not care to see the Washington correspondents.

Either this was not his position or he soon modified it. Now the practice is to see newspaper representatives by appointment, and when the interview is sought the president requires that the subject of it shall be stated. This gives him an opportunity to decline to take up subjects he is not ready or willing to discuss. In application, however, there is a good deal of latitude. After the subject mentioned is disposed of, the president talks about various matters brought up by himself or his visitor.

President Taft has an intimate personal acquaintance with nearly all the newspaper correspondents in Washington. He calls them by their first names and by nicknames. He knows their families and friends. With those in whose discretion he has confidence he chats in the same jolly, frank way as of old—with this difference, the visitor is made to feel that he must not take professional liberties. Mr. Taft does not want himself or the White House written up as a show. On account of his personal intimacy with the newspaper men he did not adhere to his original plan of confining them to very formal interviews, but this concession does not mean "making copy" out of casual conversation.

There is no more running to him to verify reports, to learn who is to be appointed to office, to get stories about sesators, to get advance statements prior to official action.

Mr. Taft does not say much about it, but he lets it be known that he insists upon the dignity of his office. He likes small talk to express his views about men and affairs, but his visitors may use what they hear for their guidance, but not as presidential gossip for publication.

Mr. Taft knows newspaper methods very well, and to save time he is apt to give information to one man to be "passed along to others." If he has leisure he occasionally sees visitors to discuss special features of the information given out. It is estimated that he will do less and less of this in the future.

He has a good fellow's dislike of being even apparently discourteous to old friends, but unquestionably his policy is to put presidential expressions on a more dignified plane. For that reason it is much more difficult to see Mr. Taft that it was Mr. Roosevelt and the subjects discussed for publication are limited to one-tenth of the practice formerly.

LOVE IN A COTTAGE THERE

Miss Mary Fulleton Sells Fine Home to Please Fiance.

St. Louis, April 5.—Friends of Miss Mary Fulleton, J. Pierpont Morgan's niece, said to be the wealthiest young woman in St. Louis, and who is to be married to Paul Blakewell, jr., later in the spring, believe that sentiment is behind the selling of the beautiful home which she has just built at 4494 Westminster place. The mansion has been sold to Richard McCulloch, vice president and general manager of the United Railways, for $40,000.

When young Blakewell won her hand Miss Fullerton had just started the building of her home. Her fiance told her he desired her, after the ceremony, to live with him in a little cottage near his father's home in Kirkwood.

So the Westminster place house was put on the market and the building of the fiance's house went on rapidly. It will not be occupied by the young couple until next fall, for, after the wedding, they will take a long trip.

JOHNSON, DEMOCRAT, AND CRANDALL, REPUBLICAN, RESORT TO BLOWS.

QUESTION OF STATE-WIDE PROHIBITION

It Is Made Special Order for April 8—Republicans Prevent Action Until After St. Louis Election Next Tuesday.

Associated Press.

Jefferson City, Mo., April 3.—The proposed constitutional amendment establishing state-wide prohibition was today made the special order for April 8 by the house. The committee on constitutional amendments reported the matter today without recommendation. The democrats tried to force its immediate consideration, but the republicans defeated the effort, the action of the republicans being based on the desire to keep the amendment in the background until after the city election in St. Louis next Tuesday, the 6th.

It is claimed the measure will pass both houses.

There was almost a riot before the final vote was taken. The democrats complained that no opportunity had been given to present a minority report and left their seats. There was a rush for the door, the republicans seeking to block the exists.

U. G. Crandall, of St. Louis, republican, and H. I. Johnson, democrat, came to blows, but were quickly separated.

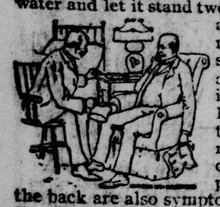
Thousands Have Kidney Trouble and Never Suspect it.

How To Find Out.

Fill a bottle or common glass with your water and let it stand twenty-four hours; a brick dust sediment, or settling, stringy or milky appearance often indicates an unhealthy condition of the kidneys; too frequent desire to pass it or pain in the back are also symptoms that tell you the kidneys and bladder are out of order and need attention.



What To Do.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills almost every wish in correcting rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. Corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and immediate effect of **Swamp-Root** is soon realized. It stands the highest because of its remarkable health restoring properties. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes.

SWEPT BY FIERCE FLAME

FORT WORTH, TEXAS, AT THE MERCY OF FIERY ELEMENT FOR THREE HOURS.

THE LOSS IS NEARLY FOUR MILLIONS

Texas & Pacific Roundhouse and Shops Burned to the Ground and Twenty Locomotives Destroyed—Hundreds Homeless.

Hearst News Service.

Fort Worth, Texas, April 3.—Turning to their ruined homes, laid waste by fire that swept an area ten blocks long and seven blocks wide, two hundred families are seeking places to rest tonight.

Every other house in the city, including the churches, is open, and those who have lost their homes and personal effects are welcomed.

The total estimated loss by the fire which began shortly after 1 o'clock this afternoon, is $3,500,000, divided as follows: Two hundred and fifty residences, $1,365,000.

Small business houses and household goods, $800,000.

The Broadway Baptist church, $60,000.

The Broadway Presbyterian church, $75,000.

Texas and Pacific railroad round house and shops, twenty locomotives and 150 box cars, $1,500,000.

J. J. Newton is the only one dead that has been found, though it is feared there are others, as many are missing, some of whom have not yet been reported by friends and relatives.

The fire was under control at 4:30 o'clock, after three hours, fighting by the firemen, in the face of a stiff wind and low water pressure.

Different stories are given as to the origin of the fire. The most plausible is that several small boys were smoking cigarettes in the barn of Frank L. Hackell, corner of Petersmith and Jennings avenue.

Here the first alarm was given and the wind which was blowing forty miles an hour fanned the flames to other residences, and then along Petersmith street east for ten blocks.

Blowing in a northeasterly direction, the wind forced the flames toward the tower and the business section of the city, and directly toward the Union passenger station.

Everything in its path was consumed, while many persons, among them a number of firemen, were overcome by the smoke and the intense heat. No fatal accidents have been reported from the hospitals tonight.

Apparently doomed to destruction by the oncoming fire, the Union station was closed by officials at 3 o'clock, but it escaped the flames.

The Texas and Pacific shops and round house were burned to the ground, but the depot escaped damage entirely.

Governor Campbell has ordered out two companies of the state militia to protect property and tonight the soldiers are on guard.

NOT COMING TO SEDALIA

Dr. C. R. Carlos Will Not Succeed the Rev. Perry E. Pierce.

(From Sunday's Daily.)

Dr. C. R. Carlos, recently pastor of Linwood Boulevard M. E. church in Kansas City, who was assigned by Bishop W. F. Anderson to the pastorate of the Epworth M. E. church of this city at the session of the St. Louis conference held here March 22, has decided that under all of the circumstances he cannot accept the appointment.

He will occupy the pulpit of Epworth church today, but has asked to be transferred to the Indiana conference, and his request has been granted. Epworth pays its pastor $1,200 a year, about one-half what Dr. Carlos received in Kansas City.

As to who will be assigned to the pastorate here nothing is known beyond the fact that he will come from the Indiana conference in exchange for Dr. Carlos.

THE MASQUED CARNIVAL

Business Men's Club Could Make It a Huge Success.

(From Sunday's Daily.)

Dr. T. T. Clifford, who suggested to the state fair directors last Thursday the advisability of holding a monster masquerade carnival in Sedalia one night during the state fair, the first week in October, as written of in the Democrat-Sentinel Friday, has some information along this line that the Business Men's association might be glad to take advantage of if the fair directors have too much other business on hand to handle the carnival proposition.

"I have seen it tried," said Dr. Clifford to the Democrat-Sentinel Saturday, "and if Secretary Mellor and his associates will take hold of the undertaking they can not only make some money for the association, but at the same time furnish the best single attraction of fair week, and give to Sedalia an advertisement like the "Veiled Prophet" gives St. Louis and the "Priests of Pallas" give to Kansas City each year."

AN UNKNOWN WON RACE

LITTLE FRENCH WAITER SCUTTLED OFF WITH THE $10,000 MARATHON RACE.

BEAT ALL PREVIOUS AMERICAN RECORDS

The Famous Runners Were Outclassed By the French Stranger, Longboat, the Indian and Shrubb Giving Out.

Hearst News Service.

New York, April 3.—Henri St. Yves, a little French waiter, scuttled away with the $10,000 Marathon race here this afternoon, laps and laps in front of the men who, this morning were regarded the best distance runners in the world.

Finishing with a tremendous spurt, the little unknown carried the lilies of France under the wire five minutes ahead of the Italian, Dorando Pietri, and nine minutes ahead of the gritty little American, Johnny Hayes. The fourth money went to Matt Maloney whose time was not taken.

Longboat, the Indian favorite and choice of the "wise" contingent, collapsed at the end of the nineteenth mile and just as the crack of the pistol signalled the beginning of the winner's last mile Alfred Shrubb, the English representative, staggered off the track and gave up the race.

He was in third place when forced to quit.

St. Yves made the full Marathon distance in 2 hours, 40 minutes and 50 3-5 seconds. This breaks the professional record of this country by three minutes and 29 4-5 seconds, made by Dorando in his first race with Johnny Hayes.

The race started at 3 o'clock this afternoon. There were 25,000 spectators. The winner gets $5,000; second man, $2,500; third, $1,500; fourth, $1,000.

WANTS $5,000 DAMAGES

W. A. VOIGHT BEGINS SUIT AGAINST THE MISSOURI PACIFIC RAILWAY CO.

THE TROUBLE WAS OVER A TICKET

Plaintiff Claims He Gave Conductor Transportation From California to Sedalia and Was Afterwards Called Upon for Cash.

(From Sunday's Daily.)

W. A. Voight, a St. Louisan, traveling for a St. Louis dental supply house, instituted suit in the Pettis county circuit court Saturday against the Missouri Pacific Railway company for $5,000 damaged for an act alleged to have been committed by one of defendant's conductors on December 15, 1908.

Judge George F. Longan and R. A. Higdon represent Mr. Voight.

According to the petition, Voight boarded a Missouri Pacific train at California on the foregoing date. He purchased a ticket reading from California to Sedalia and when the conductor called for fares tendered the ticket.

After the train had passed Tipton the conductor returned to Voight, telling him his ticket read from California to Tipton and according to the petitioner accused plaintiff of being a deadbeat and threatened to throw him off the train if he did not pay fifty-one cents, the fare from Tipton to Sedalia.

When Voight refused to pay the fifty-one cents demanded the conductor seized his overcoat and when asked by plaintiff what he intended to do with it said he was going to pawn it.

When the train reached Sedalia the conductor took Voight in charge to the telegraph office, keeping him there until he wired to California to learn if Voight had purchased a ticket reading to Sedalia and upon receiving a reply that he did, then liberated plaintiff, wherefore he asks judgment for the foregoing amount, alleging that he has been mortified, humiliated and shamed to that amount.

"RATS" AND "PUFFS" BARRED

By Managers of the New York Department Stores.

New York, April 5.—The girl behind the counter is writhing under a cruel blow. The managers of all our big department stores have put a ban on rats and puffs.

"Ladies," runs the edict, "hereafter you must appear in your own hair. Rat pompadours and puff spinnakers are no longer ladylike. Hereafter you will consider these suggestions as rules, any breach of which will be punished by a fine."

At the time this manifesto percolated through one great store there were 3,607 single rats, 931 double rats and 999 pairs of puffs on the job. Wherever you looked along the counters were elaborate overhangs of hair.

The beats of some counters had to be extended to make room for the hirsute balloon jibs and the jury rigs of cocoanut fiber.

The girls are in tears.

HE PROPOSED SEVEN TIMES

And Now Emmet and Harriet Are Soon to Be Married.

Detroit Mich., April 5.—For 21 years Emmet Richards, of Munising, and Harriet Scotten have been sweethearts, but there was no marriage, because Harriet did not quite understand her own feelings, and under the circumstances there was nothing Richards could do but wait.

In order to forestall any possible second suitor Emmet has proposed to Miss Scotten at different times, couching his suggestion in formal language, but she has always declined to entertain the proposition.

Yesterday, however, she made up her mind, and, the occasion being the seventh proposal of Richards in the 21 years, she accepted him. Both are well on the forties, but seem as enthusiastic as ever. The wedding is scheduled to take place in June.

MOTHER WAS DRIVEN MAD

Because Her Daughter Was Betrayed By a Relative.

El Paso, Texas, April 5.—Driven mad by the knowledge that her 12-year-old daughter had been outraged by a relative, Mrs. Nasaria Diaz, a resident of Jurez, Mexico, opposite El Paso, saturated her clothing with coal oil, touched a match to it and died in terrible agony.

Rushing into the street, her body a living torch, the agonizing cries of the suffering woman attracted hundreds of spectators, who watched her writhe in agony and burn to death.

She ran for half a block or more before flames and smoke suffocated her, and then, dropping in the street, her maniacal screams continued for several minutes before life was extinct.

CUMBERLAND CHURCH WINS

Steps to Unite Are Held Ineffective by Supreme Court.

Nashville, Tenn., April 5.—The Cumberland Presbyterian church in Tennessee Saturday, won the noted church case with which the Tennessee supreme court has been wrestling for two years.

The supreme court in an opinion of ninety-one pages delivered by Justice M. M. Neil, holds that the steps sought to be taken by a proportion of the Cumberland Presbyterian church in uniting with the Presbyterian church of the U. S. A., were not effective.

It was held that the Cumberland church still existed and that its members still retained its creed, doctrines, etc. It was held that the unionists had allied themselves with a different church and different doctrines.

The Cumberlands are given the church property and the unionists are adjudged not to have a right or title to it. Their bill in which they sued to recover church property in Fayetteville, Tenn., is dismissed with costs.

HOME WAS A GILDED CAGE

The Police Seized Costly Paintings, Bric-a-Brac, Etc.

Baltimore, Md., April 5.—The police raided the home of William F. Downs, the city hall defaulter, here, and discovered that the man lived in a veritable gilded cage.

The house was literally filled with costly statuary, paintings, silverware, cut glass, the most expensive kinds of furniture and fittings, while enough clothing some of which had never been worn, was found to supply twenty men.

In addition to these seizures the city attached the property and took possession of Downs' two race horses, Orphan Girl and Rejected Stone. Downs is still in jail and will likely remain there under $175,000 surety until his trial.

State's Attorney Owens stated that Downs would be brought to trial this month, and that his conviction was assured.

MAIL SACKS WERE STOLEN

At London, Ohio, and Tramps Are Suspected of Theft.

Columbus, Ohio, April 5.—Two mail pouches have been stolen from the Big Four platform at London, Ohio, twenty-five miles southwest of here.

Big Four train No. 25, east-bound, dropped the mail sacks there at 1:50 a. m., and they are believed to have been stolen from the platform soon after they were dropped.

Two tramps seen in the neighborhood are suspected, and it is believed that they threw the sacks on a freight train coming to Columbus, but a search failed to locate the sacks or the tramps.

KILLED BY OWN INVENTION

Turned on Too Strong a Current in His Electric Bath.

Indianapolis, Ind., April 5.—Conrad Sperka, a young electrician, died suddenly in an electric bath of his own design.

He had arranged that the water in his bath tub could be charged with electricity. He was found unconscious in the tub and soon died. The coroner investigated the case. It seems Sperka turned into the bath a heavier current than usual and the shock killed him. He came from Germany three months ago.

WAITRESSES GO ON STRIKE

Because One Was Reproved for Joshing a Millionaire.

Providence, R. I., April 5.—Fifteen girl waiters in a leading restaurant went out on strike here because one of their number was reproved by the proprietor for "joshing" a millionaire over the telephone. At least that is what Miss Kitty Reiner called it.

"Yes, I considered it all right," she said, "and I don't think anything was coming to me from the boss as long as the millionaire was a customer and was telephoning in his order for a few lobster sandwiches."

NO FEE, NO CERTIFICATE

Doctor Refuses to File Birth Notice Unless Paid.

Kenton, Ohio, April 5.—Dr. J. C. Boone, of Mt. Victory, has been arrested here on a warrant sworn out by State Registrar Frank L. Watkins, of the vital statistics bureau, charging him with violating the new law for the registration of births and deaths.

Dr. Boone is charged with having refused to notify the Mt. Victory registrar of the birth of Enoch H. Martin within the required ten days after birth.

He admits having broken the law, but says he will carry the case to the supreme court on the contention that the law is unconstitutional in that it requires work from the physicians without providing a fee for the same.

S.S.S.

OLDEST AND BEST BLOOD PURIFIER

We have never claimed that S. S. S. was a medicine to work wonders, nor one that would cure every physical ailment or disorder. More than forty years ago it was placed on the market and recommended as a blood purifier, and today, after a long and successful career, and when its use has become almost universal, only the same honest claim is made for it—that it is a cure for those diseases and disorders arising from an impure or polluted blood. Time makes no mistakes, and the very best recommendation of S. S. S. is the fact that it has stood a long test and is now more generally used, and has the confidence of a greater number of people than any other blood medicine.

The blood is the most vital force of life; every organ, nerve, muscle, tissue and sinew of the body is dependent on it for nourishment and strength, and as it circulates through the system, pure and rich, it furnishes to these different members the healthful properties needed to preserve them and enable them to perform their various duties. So long as the blood remains free from infection we are apt to escape disease, but any impurity, humor or poison acts injuriously on the system and affects the general health.

Pustular eruptions, pimples, rashes, and the various skin affections, show that the blood is in a feverish condition as a result of some humor, or the presence of an irritating, fiery acid. Rheumatism comes from an excess of uric acid in the circulation, while Catarrh, Sores and Ulcers, Scrofula and Contagious Blood Poison, are all deep-seated blood disorders that will continue to grow worse as long as the cause remains. Bad blood may come from various causes, such as a sluggish condition of the system, imperfect bowel and kidney action, indigestion, etc., or the trouble may be inherited; but whatever the cause the blood must be purified before the body can be healthy.

Having used S. S. S. extensively I can testify to its merits as a blood purifier and tonic. It enriches, purifies and cleanses the blood of all impurities, and at the same time is a wonderful invigorator, tonic and system builder. It is also a fine remedy for Rheumatism. It is master of this very painful disease, and as a tonic to give appetite, strength to the nerves and build up the system it has no equal.

It is a very fine medicine indeed, and I have every confidence in it.

MRS. F. L. BAILEY.
702 Linden St., Clearfield, Pa.

S. S. S. is a natural blood purifier and tonic. It is made entirely of the harmless juices and extracts of roots, herbs and barks of recognized curative ability, and being free from all harmful minerals is an absolutely safe medicine for young or old. S. S. S. goes down into the circulation and removes any and every trace of impurity, humor or poison. OVER A HUNDRED ADS

WANT AD DAY SUNDAY WAS A BIG SUCCESS IN EVERY PARTICULAR.

SOME ADVERTISERS GET QUICK RETURNS

W. J. Cotton, a Former Windsor Newspaper Man, Had an Applicant for His Calf Before Breakfast Sunday.

(From Monday's Daily.)

Want Ad day—Sunday, April 4—caused a large number of people to make their wants known. Some had something to sell; others had rooms or houses to rent; others things to sell or exchange, and still others had found or lost something. Altogether there were over 100 of these little ads in the paper—to be accurate, 108—the largest want ad day in the history of the paper.

These little ads "made business good" all over the city, and the returns came hardly before the ink had dried on the paper. Many did not stop for the Sabbath to answer the ads, but went ahead, fearing, no doubt, someone would rob him of the opportunity to get possession of the wanted property or article.

Replies to the "silent addressed" ads came thick and fast to the Democrat-Sentinel office, where they await the advertisers.

Mr. W. J. Cotton, who was offering a thoroughbred calf for sale, says he had one applicant before he got his paper yesterday morning, and that all day Sunday fourteen other persons answered the ad.

Mrs. Minnier, of 1006 South Massachusetts avenue, advertised a phaeton for sale, and, believing she would needs a week's run of the ad to sell it, ordered it for six insertions. This morning she 'phoned to the office and ordered the ad discontinued, saying she had sold the property.

Other instances of the quick returns received through these little ads reach the Democrat-Sentinel office freqnetly and columns could be written about them.

Want Ad day was a success and proved advantageous in many quarters.

EASTER MUSIC RANG

In the Ears of the Church Janitor as He Drifted Into Eternity.

Baltimore, Md., April 5.—While the strains of sweet Easter music, rendered by the rehearsing choir of the Seventh Baptist church still reverberated from wall to wall of the house of worship, John Vick, the young assistant janitor of the church, laid himself down upon a pine table in the basement of the building, after deliberately turning on all of the gas cocks in a large stove, and calmly began his last sleep.

Cold and stiff the body was found at 8 o'clock in the morning by William Vick, the father of the young man. No cause can be advanced for the suicide.

DON'T LIKE NAME OF 'EGG'

NEW YORK COUPLE ASK THAT IT BE CHANGED BY SUPREME COURT TO "ECK."

TROUBLE AND HUMILIATION IN THE PAST

These Particular "Eggs" Are the Only Ones in City Directory of Gotham —Permission Granted for Change April 29.

New York, April 5.—Deviled, fried, boiled and scrambled eggs, good and bad, figured in the petition of Ulrich Egg and his wife, which came up before Judge O'Gorman in the supreme court here, to have their surname changed to Eck.

Mr. and Mrs. Egg set forth in their affidavit that the present name of Egg causes a great deal of trouble and humiliation; that would-be facetious friends ask whether we are hard or soft boiled or whether we are omelet."

Egg is a restauranteur at No. 108 West Eighty-first street, and Mrs. Egg is in the dressmaking business at No. 566 Fifth avenue. In their united appeal both declare they have been tormented by acquaintances and have lost money and prestige owing to the oddity of the name they bear. The appeal concludes:

"Your petitioners appear to be alone with their affliction, because we can not discover any other Egg in the city directory, and it is because of this isolation that we desire to have the name changed."

Permission was granted to the stricken couple, but, by reason of the delay caused by certain legal formalities, they will remain Egg until after April 20—after Easter. Then they become Ecks.

REPUDIATES A CONFESSION

As a "Frame Up" Forced From Her By Police "Third Degree."

Detroit, Mich., April 5.—After making a confession to the police here of how she killed her husband by shooting him as he slept Mrs. Victoria Cymbalowski, a comely woman of 23, has told Judge Connoly that her alleged confession was a "frame up" dragged from her against her will by the sweat-box methods of the detectives' office.

The court was shocked at the woman's story, which she told with much exactness of detail and it is believed an investigation will be ordered into the police methods in vogue.

A new trial will also be granted in all likelihood.

SCALES WERE JUGGLED

FILED SUIT TO RECOVER BACK DUTIES

Are Alleged to Date From 1901, and Uncle Sam Now Demands Very Clever Sum of $1,500,000 From Big Trust.

New York, April 5.—The government having been awarded by a jury in the United States district court the sum of $14,116 as penalty for the fraudulent weighing of sugar at the dock of the American Sugar Refining Co. in Williamsburg, United States District Attorney Stimson in a note of issue which he has filed with Commissioner Shields, asks that advancement and preference be given to another action instituted by the government in the United States circuit court against the sugar trust.

This suit is to recover $1,500,000 back duties since 1901, based on the allegation that the Brooklyn refinery's checkers juggled with the scales used by the customs weighers, so that the sugar company was able to sell a greater amount of sugar than had been weighed.

The lawyers for the sugar company today asked the court to dismiss the government's complaint.

BOUGHT SWEET SPRINGS

BAYLIS STEELE AND A KANSAS CITY SYNDICATE THE PURCHASERS.

TO AGAIN BE A FAMOUS SUMMER RESORT

Grounds to Be Enlarged and a Noted Landscape Architect Is to Lay Them Off and Still Further Beautify Them.

A syndicate composed of Kansas City parties, headed by Bayless Steele, has purchased the Sweet Springs, Mo., springs property, with the intention of enlarging and improving the grounds and putting it on the map again as a famous summer resort. It is located on the Missouri Pacific railway seventy-five miles east of Kansas City, in Saline county, Mo.

For a great many years Sweet Springs figured largely in the social and political history of Missouri, and was recognized as the most famous resort between the Mississippi river and the Rocky Mountains. The leaders of Missouri's political and social life gathered there from Kansas City, St. Louis and other sections of the state. It was the home of the Marmadukes, the summer residence of Judge Lindley, Judge Henry, Dr. Munford and others with whose names Missouri history is inseparably bound up. It was to this quiet place that Missouri's most famous senator—Vest—returned after his periods of conflict in the senate. He came here to rest and recuperate his strength and to enjoy the quiet of his summer cottage. And it was under those outspreading elms and maples that he spent his last hours of life.

The syndicate purposes to enlarge the grounds and has already engaged a noted Kansas City landscape architect to lay them off and beautify them. No expense will be spared to make it attractive as a resore for pleasure, for health and for recreation.

The business men of the town of Sweet Spings have recently organized a Chautauqua association and contracted with the Midland Chautauqua bureau, of Des Moines, to put on a Chautauqua program equal to or better than any west of old Chautauqua, N. Y. Senator Bob Taylor, of Tennessee; Senator LaFollette, of Wisconsin; Governor Manship, of Mississippi; Dr. McArthur, of New York, and other platform national celebrities, including Dr. James S. Myers, of Kansas City, an experienced Chautauqua man, who will be the manager and also appear on the program, will be prominent attractions in the first assembly held this year, from July 23 to August 3. The Chautauqua will be made permanent and all the improvements will be of a substantial character. They propose to make this the great Missouri Chautauqua.

The announcement that Sweet Springs is to be restored to its former prominence and even improved over its palmiest days will be received by the best people of Missouri and the central west with genuine pleasure. It is recognized by the medical profession and those seeking health as the Carlsbad of the west. Recently in boring for additional mineral waters, a gusher of sulphur water was developed, adding greatly to the already large range of mineral waters to be found at this resort.

Inducements are being offered one of the electric lines building out of Kansas City toward Jefferson City to pass through Sweet Springs; also to enlist the interest of the good roads people to build a rock road from Kansas City to Sweet Springs, making it accessible to automobiles.

The Springs grounds are notably beautiful for situation, lying in the bend of Blackwater river, which is a favorite resort for fishermen from the whole country round. It will furnish fine boating privileges for pleasure parties, and in every way contribute to the attractiveness of the resort for pleasure and health purposes.

The sale of these properties to the syndicate was made through the real estate firm of Beaty & Huston. Mr Beaty, as secretary of the Sweet Springs Commercial club, has been working on this project for some time and has succeeded in enlisting the necessary capital to improve and develop this once famous resort.

ROOSEVELT INTO THE SEA

A Wave Swept the Ex-President From A Small Boat.

Gibraltar, April 3.—A wave swept Theodore Roosevelt into the sea from a small boat in which he was returning from a visit to Ponta del Gada, off the Azores, last Tuesday. Two sailors caught him just as another wave pitched him toward the side of the steamer Hamburg. Passengers on the boat told of the accident.

Mr. Roosevelt's patriotism put him in danger. He had been visiting the American consul and as the small boat neared the side of the liner on the return trip the band struck up "The Star Spangled Banner." The ex-president rose and bared his head. When the national hymn ended the boat was pitching beside the Hamburg and Mr. Roosevelt made a flying leap for the rope ladder that dangled from the side of the vessel. Just then the big wave tossed the boat, threw him from his balance and he went into the sea.

It proved to be nothing more than an ordinary gun and hereafter the artist will utilize it to calm obstreperous individuals who make themselves numerous in that locality.
